## Customer Reviews

This book was wonderful. I could not put it down. I just finished it and I want the next one. Written of

course by a pro. Hope things work out the way I want them to. But if now i will love it anyway. Haven't read a bad one yet.

This fast moving series continues to get better with each book and this one is no exception. Missy, Kel and Chas are investigating the disappearance of an old friend in the Midwest. In between bouts of morning sickness, Echo is protecting someone close to Kel while keeping her book and candle shops running with the help of her new friend and employee, Joyce. Spencer and Janssen are working on the disappearance of a close friend. I like how diverse and well developed the characters are. Add in twisted plots and interesting backgrounds and you get a fantastic adventure that any cozy mystery reader will enjoy!

Wow!! Just wow!!! This has to be the best book in this series so far!! I just can't say enough about it, I wish I could give it 100 stars or more because it deserves so much more than 5 stars. Milly, Chas, Kel and Echo are into another mystery full force. Spencer, Janseen, Joyce even Tim and Steve are in this book. Grayson's mother is a piece of work! Is Grayson's wedding going to happen? This book made me laugh and cry and hold my breath so many times I lost count!! I love the longer book because she has a chance to really go into depth and did she ever! She had so many different scenes in different areas going on all at one time and tying in together. I wanted it to go on forever but the ending did give us a cliffhanger and I hope book 10 comes out soon because I can't wait to see what happens next!!! Fantastic book to read! This entire series and also her first series because it is all the same characters and more added along the way are excellent stories!!! WOW!!!

Is it a cozy mystery or a suspense thriller? There are a few in the series that leave me asking this question and this happily is another of them. I love the way the story starts out as a cozy mystery but then switches to the suspense thriller. The story had me so hooked I couldn't put it down until I had read the entire book ( sleep is under rated anyway ). There are so many surprises. You will need to have your tissue ready for some of them. Some of the surprises will leave you saying "Oh No!" This book brings back some quirky characters, which is always fun. Definitely one of my favorite in the INNcredibly Sweet Series. I can't wait for the next one.

As someone who reads all of Summer's books, I find it hard to come up with new ways to describe how much I enjoy this series. This book seemed like it was much longer and I particularly enjoyed that. There are so many unexpected turns in this book that I can't wait to see what direction the next

book takes. I have to say I am not a fan of the direction things are going with Spencer but I am probably in the minority on that! There are a number of cliffhangers in this book which means I am eagerly awaiting the next one.

So I left a 5 star review because this was a wonderful, well-written story! There is a change-up in the way this one is written compared to the others, but Summer effortlessly weaves in and out of each storyline and eventually pulls it all together in a neat package with a heck of a cliffhanger at the end. There are so many twists and turns going on that this book will keep you in suspense until the very last page. I am quite excited to read the next book in the series!

I loved this book! The author had several different things going on and managed to keep my attention on each of them. It seems everyone has a piece of the action and one character is in for the surprise of their life. The only thing I wasn't too crazy about is that parts of the story seems to have cliffhangers. However, as often as books in this series comes out, I know I won't have long to wait for the next great book.

Just when I think the series can't get any better, it does. The only thing I can say about this is wow!!! There's a missing woman and the only people that can solve the mystery is Kel and missy, leaving a pregnant echo at home this time. Time is of the essence but 2 heads are always better than one. Spencer is my hero!!! Hopefully he will come home where he belongs. This is a must read, a real page Turner. You will not want to put it down. Happy reading
