# Safe: Red Reapers MC

## Synopsis

I thought I'd seen it all working in the ER, but Shane is a whole new world of intensity. KAYLA is a smart girl—too smart to be putting myself in this sort of danger. But there's something about this man that I can't walk away from. I didn't ask for him to protect me. I'm no one's property. At least, that's what I thought. I have no idea how this will end, but one thing is crystal clear: It's Shane. Or else. She saved my brother's life and I won't let anyone put her in danger. SHANE's violent history leaves scars, puts blood on your hands, and teaches you that trust is a poison. Or so I believed before I met Kayla. One of the youngest doctors this city's ever seen. But my past is threatening to destroy everything she's worked for. She has no right to trust me. But she's got no other choice if she wants to stay alive. SAFE is a full-length, standalone romance novel with steamy hot sex, NO CHEATING, strong language, a happily ever after ending and NO CLIFFHANGERS. Contains dark and disturbing themes, and over the top sexiness that may be uncomfortable for some readers. Perfect for fans of Joanna Blake, Alexa Riley, Devon Hartford, Sabrina Paige, Winter Renshaw, Vanessa Waltz, Emilia Kincade and Melanie Harlow

## Customer Reviews

## BAD. REALLY BAD. Don't waste 4-5 hours on this drivel. I can't believe this was even published. There were so many things wrong with this book, but the one that ruined it completely, was the EX-GIRLFRIEND. This "hero" had broken up with the EX but was still having sex with her and working with her. Everything was about Amber. She called and texted constantly. Amber this, Amber that. He even kept calling out her name while sleeping. And the heroine didn't take it as a hint? One time immediately after sex, the hero took a call all about Amber. When the heroine asks about her, he just says "Don't worry about it". It was so obvious he was still in love with her. He even admitted it later. And the heroine just put up with it. Gah. She should've kicked this guy to the curb. I thought this was going to be a fun read but it's a pretty bad sign when the Ex-girlfriend is in the book more than the heroine. If I never hear the name Amber again, it will be too soon. Suffice it to say, I won't be reading anything else by this author.

I couldn't even finish this story. That's big for me. I always finish books, even if I just skim through to the end, no matter how bad they are. This time, I just couldn't do it. The behavior of the main female character was just so completely off the wall and wrong for the type of person she was supposed to be that I just couldn't buy into this at all. \*\*\*Small Spoilers Here\*\*\* A well trained, dedicated professional who compromised her ethics and broke really important confidentiality rules that could end her career to a stranger? No. The reason for her calling to do so was stupid since she knows nothing about him and should have no expectation that he knows anything at all. I'm not even going to go there with her snap decision to just jump right into a physical relationship with the guy in the parking lot where she works. She had met him about 24 hours before and conversed with him for probably 30 minutes total (if I'm being generous). I couldn't stand to go any further than that. It was all just too random and unbelievable.

This book has such potential, sadly, unrealised. I'm still reading it and it's a first that I'm writing a review before completing a book, but!... Their first time together is in the back seat of her car?! Seriously?! He waited four hours for her so they could have their moment of passion in her car. This, AFTER, he waited with flowers for her the previous night. The Hero has such potential, but I'm not sure what the author wanted to portray his character as. The grammar is terrible too. Book was not proof read. I don't like giving bad reviews but, I am so disappointed with this book so far.

This book had a lot of promise. It started out really good. The story was fast paced and action filled.

But then it just felt like the story kind of fizzled out. Some parts just felt incredibly over the top.

This book was really good. Filled with nonstop action and MC club loyalties. Love makes you want all the best it has to offer but when tested decisions have to be made. We won't talk about betrayal!!! You should really give this book a read. It's worth all the time you have. Julian was a character to give EVERYTHING up FOR and TO....Plus I love strong kick..Women.

What a crazy ride! Kayla's life gets turned upside down when Shane comes charging into it. The attraction is obvious from the start but his outlaw lifestyle is something that keeps her at an arm's length even though she wants him to be waaaaay closer. The sexual energy in this book was great and I'm definitely looking forward to Mrs. Parker's next release.

What a great story... Could not stop reading , I love these kind of stories very real ... Thank you for such deep characters who I fell in love with immediately...I wish I could rate it higher than a 5+...I hope you have another one soon ....â••â••

I'll admit, I was really excited about this bk going in and for the first fifty pages or so, it really felt like this book was going to be a great one. But then the plot sort of just... lost itself. Stuff started happening because the plot said so and the more I read, the more outlandish it became. By the time got to the end, it felt like the author had completely lost sight of what the point of the story was.
