Adolescence: Guiding Youth Through The Perilous Ordeal

Synopsis

"An immense number of people are going to be helped by this book. It is one of those rare occurrences when high scholarship is informed and guided by immense clinical experience. The result is a learned and wonderfully readable book that is both accurate and commonsensical. This is a seminal work." --Andrew Malcolm, M.D.

Miller Newton has been convicted in civil court of abuse & false imprisonment. He got his "training" in a notorious drug rehab that had its roots in a cult called the Seed. The seed was accused of the senate of the united states of using Korean brainwashing techniques.miller Newton ran his own cult based on these techniques called "Kids" that has caused numerous heartbreaks and shattered families.warning to all...stay away from this type of "therapy" . Visit this link for more information. [...]

This man has just settled ANOTHER law suit with a former patient!! A few years back a former "patient" received 4.5 million, a few months ago another one received 6.5. His record of abuse and neglect of adolescents is frightening...if you are truly looking for help with a troubled teen...look elsewhere. His methods are based on brainwashing techniques used on OUR KOREAN WAR POWs and treatment modalities developed by SYNANON - A KNOWN CULT!!!!!

Miller Newton is a cult learder!! He ran one of the most inhumane drug rehabs ever. He held people

against their will and "treated" kids with no "problems" at all. He has destoyed many families to the point that perents have not seen their own children in 10 or more years. I could not imagian any good coming from such a wicked, twisted, egocentric, beast. Do not waste your money and if you think you need to please go to theStaights dot com or KIDS of North Jersey first!!!

This so called "PhD." author has been convicted in a civil court of false imprisonment and abuse of adolescents. Read if you must, but be forewarned about this author and his shaky credentials. There is a lot available online about this defrocked priest and his controversial counselling techniques (CULT). Research before you read!!.....on the other hand, buying this book may help the author payoff some of the millions of dollars he owes in lawsuits from former clients...

I would definitely not recommend this book. Miller Newton's views on treating children and teens are horrible and abusive.Readers of this book should know that Miller Newton is a notorious figure that has been accused of horrible abuses. He was successfully sued in 2000 for \$4.5 million for abusing clients at his facilities...

Please investigate this author. He has a very shocking past dealing with teens.
