Product Dimensions: 5.5 x 0.6 x 8.3 inches

Shipping Weight: 11.8 ounces (View shipping rates and policies)

Average Customer Review: 4.5 out of 5 stars [See all reviews](#) (27 customer reviews)

Best Sellers Rank: #609,448 in Books (See Top 100 in Books) #64 in [Books > Religion & Spirituality > New Age & Spirituality > Divination > Runes](#) #506 in [Books > Religion & Spirituality > New Age & Spirituality > Wicca, Witchcraft & Paganism > Wicca](#) #1057 in [Books > Religion & Spirituality > New Age & Spirituality > Wicca, Witchcraft & Paganism > Witchcraft](#)

## Customer Reviews

I really liked this little book. It's a quick read, but inspiring. Another reviewer here recommended traditional runes, but I, for one, have always been left a little flat by traditional runes, which are Norse in nature. I'm just not drawn to Norse mythology or systems, but this system is based on Pictish symbols (she claims), much more comfortable for me personally. I'm also quite drawn to 13 stones as a good number for a Witch. I'll just add that I do use tarot as well, but I like to have a variety of tools to choose from. I liked this book, and while I plan to slightly change some of the symbols on the stones to fit me personally, the system is a basically sound one, the writing is pretty solid, and making your own runes--whatever system you use--is a good way to make a solid connection with your divinatory tools. Blessed be!

I truly felt drawn to buy this book after seeing a set of runes on another site. As many craft oriented people will tell you it is a true joy to make and use your own tools. I saw a product review on YouTube and decided to research the book myself. I received the book a few weeks ago and have since made my own runes and am using them. I found the book easy to understand and easy to use, it is highly informative and very easy to use along with the runes themselves, the writing is clear precise, and there isn't yards of unneeded material for you to wade through. I know for myself I found it very

helpful and enjoyable and plan to make another set of runes for friends and family. I rate it with four stars .

Rarely have I come across such a powerful and delightful system of divination! The author leads the reader through step by step instructions on how to make their own rune stones, thus more greatly empowering them. The designs of the runes speak directly to the reader's spirit. In my opinion these runes are a special blessing from the Gods, I can't imagine being without them. Overall I think that everyone who wishes to have a better system of divination should have this book. I LOVED IT!

This is a wonderful book for people who like to make their own runes. I have made my own set of runes using this book as a guideline. The materials are very easy to come by, cheap to make, and easy to read. You get the freedom to personalize the runes with your own paint color choices and design styles. You pick stones that "speak" to you and sizes and shapes that "feel" right. I have used Norse runes made of wood, antler and bone. If you are a purist, and want to "make your own" but do not have the equipment or, worse yet, the patience, money and time to do an authentic wood rune set, the stone runes are a blessing. These runes actually seem to have more energy - in my opinion. The interpretations are easy to follow. The spreads are not complicated. This is a bare bones book that anyone can pick up and use. You can even use the basic instructions to pick a stone to make as your own charm or, if you have a holed stone, make your own talisman.

I already had Witch's Runes engraved on black onyx stones, but the meanings were concise and left a lot to be desired. This book goes into much more detail and enhances the readings I give to myself and to others. I recommend it to anyone interested in obtaining Witches Runes or making their own to enhance their own readings.

It's been some time since I read this book cover-to-cover, but nowhere do I recall reading the author's claim that the book is for Wiccans, by a Wiccan. She uses the word witch. So those of you who aren't comfortable with the idea that Wiccans don't have the monopoly on the word or the be-all-end-all definition, may wish to stay clear. Same applies for those who are looking for info on the Futhark runes. The word "rune" as it applies to this book, uses the very basic definition -- a divinatory system. I created a set of my own rune stones about 6 or so years back using this guide and I have to say I've had a lot of success with them. They're excellent for divining and they work well (and quite successfully) when used in spell work. Overall, it's a handy little reference book to

keep around.

This great little book explains everything one needs to successfully make and use a set of divination Runes. It's a quick read that beautifully defines and describes just exactly what makes a Witch a Witch (without unnecessary religious connotation), and how divination works when we connect to the universe. Very well written, this book is appropriate for teens and up, and demystifies Runes for anyone with the curiosity to pursue making and using their own set.

The book is great. I have not had time to read it completely as I ordered several books at the same time. I am planning on making my own runes and using the book as my guide. I will enjoy this for a long time.
