Synopsis

What kind of man is Donald Trump? What kind of man is he? And why has it been so hard for so many people to see him in the White House? This book is our mea culpa for misinterpreting a remote viewing session in which we saw a person with blond hair wearing blue pants sworn in at the next Presidential inauguration. We take a psychic look at the profound and surprising spirituality (yes, spirituality) of Donald Trump, how a Texas connection proves to be the undoing of Hillary Clinton, and the tumultuous events of his coming three years in the Oval Office.

Customer Reviews

The latest (May 2016) book about the future president from this RV-group. A fascinating read with interesting insights and grave predictions. If it all amounts to just guesswork, well it is still a fun read, however, if it turns out to be 83% accurate well then Americans better prepare for a new world. It would affect their portfolios as well as their jobs and daily lives - rather drastically. Thomas Jefferson wrote about his second term that his Embargo Act of 1807 made Americans so much more self sufficient (but it brought trade with other nations to a standstill). Will the Donald be able to claim the same? According to this book much will happen that is simply outside of his control. Written in a hurry, the author's earlier books were "spotless" no errors, this one has plenty of places were a
word is missing or at the wrong place in a sentence. Looks like they are gearing up to get as many books out as soon as possible. Does that undermine their credibility, or do they feel they have a real message & duty to provide this kind of information to as many as possible?

I believe I've already written a review for this book. This seems more just like a guessing game by the left to me. Of course, I could be wrong. That's just my opinion.

This is a very thought provoking little book. Some good news, some bad news, some surprises, some victories. Some bumps in the road. I really liked it.

I don't think his son Barron, would make a good VP, He is only ten years old!

Very interesting read. More than a small amount plausible. Hope it doesn't go this way, but am somewhat better prepared if it does.
