# Working In Biosafety Level 3 And 4 Laboratories: A Practical Introduction

## Synopsis

The first training manual for new staff working in BSL3/4 labs. This guide is based on a course developed in 2007 by the EU COST action group 28b which serves as a standard for many courses BSL3/4 training courses worldwide. The four-day course consists of lectures and practical training with the lecturers covering all the different possibilities of organising a BSL-3/4 lab including the adaptation to the local requirements of biosafety, safety at work, and social regulations. This book covers bio-containment, hazard criteria and categorisation of microbes, technical specifications of BSL-3 laboratories and ABSL-3 laboratories, personal protective gear, shipping BSL-3 and BSL-4 organisms according to UN and IATA regulations, efficacy of inactivation procedures, fumigation, learning from a history of lab accidents, handling samples that arrive for diagnostic testing and bridging the gap between the requirements of bio-containment and diagnostics. Course participants can not only use the book for their actual training event but it will remain a useful reference throughout their career in BSL3/4 labs.

## Book Information

Paperback: 152 pages

Publisher: Wiley-Blackwell; 1 edition (December 4, 2013)

Language: English

ISBN-10: 352733467X

ISBN-13: 978-3527334674

Product Dimensions: 6.8 x 0.3 x 9.6 inches

Shipping Weight: 11.4 ounces (View shipping rates and policies)
