Like all of the books in this series, this is a well written mystery with awesome characters. Private investigators, Liz Talbot and her husband Nate, are hired by the attorney firm of Rutledge and Radcliffe who represents Clint Gerhardt in the murder of his wife, socialite, Shelby Scott Poinsett Gerhardt. The investigation is slow going because the victim, Shelby Scott Poinsett Gerhardt is beloved by all for helping those less fortunate and her many charitable causes. It seems no one has a bad word to say about her making finding her killer difficult. Once Liz visits with an old and exclusive book club Shelby belonged too, she finds out more about the politics of the book club and some viable people of interest in the murder. There was some red herrings well placed and a couple of attempted murders involved, but did not figure out who was responsible until the end. I read a LOT, and I have several series that I love and this is definitely one of them. If you like well written books, well drawn characters and some humor thrown in, this is a series for you. I finished this last night and the victims character was so well drawn, I'm still thinking about her and what all she could have accomplished if her life wasn't cut short.. I recommend this series to all readers of mysteries.

Liz Talbot Mysteries are one of my favorite series for a fun and definitely Southern mystery/detective book. Liz is a private detective and she works with her (now) husband, Nate to solve a variety of mysteries â “ generally those involving murder. In this book, a much beloved socialite has been pushed to her death and her husband has come under suspicion. Liz and Nate are hired to try to disprove this and come up with the real killer. What I found really interesting in the story is the detail that the author goes into about how PI's do routine checks. It gave a lot of insight into how much can be found about individuals just by checking on-line sites. Possible SPOILER ahead if you have not read the prior fourth book in this series. Liz is assisted by the ghost of her childhood friend, Colleen, who is forever now a teenager. The fun part is that Nate can now see and talk with her as well. This started as soon as Liz and Nate were married at the end of the last book. In prior books, Liz had to explain away her unexpected knowledge but now Nate accepts that Colleen can give them an unexpected boost now and then to aid them in their investigations. Murder, attempted murder, and mayhem abound in the book. If you like a fun and funny mystery, this is a great book and a great series to read. I was provided a digital advance reader copy of this book by the publisher, Henery Press, via Netgalley.

Susan M. Boyerâ™s Lowcountry Book Club is the fifth entry in the Liz Talbot Mystery series, and just as good as its predecessors. This time Liz and Nate, back from their honeymoon, are investigating the murder of a local socialite/volunteer who seems to have been loved by everyone

around her, including the husband accused of pushing her over the balcony (and possibly another manâ ́but who?). With the help of her ghostly friend Colleen, Liz narrows down the suspect list and discovers just how much turmoil can develop in a very prestigious Book Club. As always, the city of Charleston and the island community of Stella Maris contribute essential aspects to the story and Lizâ ́ family members make cameo appearances. Iâ ́ve enjoyed this series from Henry Press since it began with *Lowcountry Boil*â ́ worth reading in order.

Our favorite Private Investigators Liz Talbot and her husband Nate have been asked by one of the most prestigious law firms in Charleston to investigate who pushed socialite Shelby Scott Poinsett Gerhardt out the second floor window of her home. Shelby was known for all her work at the local homeless shelter to being a member of an old and exclusive book club. Enter the politics of the book club and the social crowd of Charleston into the story. Shelbyâ ́s husband Clint Gerhardt of course is the prime suspect of pushing his wife. So come along with Liz, Nate, her brother a Charleston police officer and others to solve this mystery. I have really enjoyed Ms. Boyerâ ́s writing since book 1. The writing is excellent, the development of the characters deep and added humor to the story always helps.

This series is hands down one of the very best on the market, in a market of many. This is book five in a series and it is every bit as good and exciting as the previous four. Chances are youâ ́ve already perused other reviews so youâ ́re already familiar with the storyline, so I wonâ ́t repeat it, but I will say you will be missing a great read if donâ ́t read this one. Begin with the first and read them all in order. This author has the great ability of spinning a story and never giving away the ending until youâ ́re there. If you love mysteries involving a spunky, southern female private investigator, her side kick, the ghost of a childhood friend, a love interest partner, wonderful family and friends, and low country settings that make you want to pack a bag and visit, and delightful four legged friends and family, then buy the series and prepare to be entertained. For comparison purposes only, if youâ ́re a fan of Kathryn Wall youâ ́ll devour this book and series. 5+ stars for the entire series!!
