Mermaids 101: Exploring The Magical Underwater World Of The Merpeople

Synopsis

Mermaids are powerful and graceful inhabitants of the waters who can teach us about harnessing the unconscious mind's ability to attract, create, and manifest . . . while having a fun and playful life! In this latest entry into her best-selling 101 book series (which include Angels 101, Archangels 101, and Fairies 101), Doreen Virtue gives you the fascinating history of mermaids and mermen from Atlantis and beyond. You'll read about people's true experiences with mermaids, and learn how you can unleash more manifestation power by tapping into your inner merperson. You'll also see images of ancient and modern mermaids, including photos and descriptions of men and women who wear neoprene mermaid tails and swim in oceans, pools, and lakes alongside whales, dolphins, and other wildlife. Mermaids 101 is a wonderful reference guide for anyone who is fascinated with this magical underwater world.

I was afraid of this. I too am writing from the perspective of wanting more new information especially on where the Mermaids now reside on Terra and in the Stars. .. the information in this book looks beautifully edited but is lacking the juicy details us incarnated Mermaids really want to know, hence the title, "Mermaids 101" it's just that. Doreen, having written about Merfolk in some of her other books, made it seem like this book would have the details I described firstly. I'm glad a book of this nature is being published to reach out to more humans and enabling more magick of the Ocean to

be known, however for us Mermaids, StarMers etcetera who are thirsty for more genuine channeled knowledge about ourselves, this book is a let down from what I read here in the preview pages. I'm not afraid to voice my opinion. I feel Doreen's newer books lack substance and the magick her earlier books possessed; they feel to be published for more profit. My heart sinks. It shouldn't be like this. If you really want to read about mermaids and water spirits you **MUST READ WILLIAM MISTELE'S** books, "Undines" would be a most perfect beginning. And how many oracle decks does one need that are subpar? Half the images on them are not that great. I was at a bookstore in Santa Monica, CA with my mersister and she wanted to buy Doreen's Mermaid Dolphin deck, I told her I had it and wouldn't have purchased it if I had seen the images first. She asked to see the demo at the book shop. After reviewing it she set it down and decided otherwise. I collect decks for their magick and beautiful imagery, and her oracle decks are not delivering for me.

Mermaids 101 by Doreen Virtue is a book all about mermaids, dolphins, Atlantis, and the connections they share with us. If you are a fan of Doreen's and are interested in this subject, this is a book you'll want to check out. Mermaids 101 is a book by Doreen Virtue that I have been waiting for years to read. I knew that she loves mermaids and has featured them as a topic in other books of hers, such as Earth Angels. I've loved mermaids since I was a kid, and The Little Mermaid was something I could watch on repeat for days on end. So, this was a book I was really quite excited to read. Doreen focuses on mermaids, dolphins, and Atlantis in this book. She asks the questions of if we all originated as merpeople, explains the aquatic ape theory, tells of incarnated dolphins amongst us, the difference of mer-deities, and shares many stories of people who have encountered mermaids or are a type of incarnated mermaid here on Earth. The book is in full color, which is really nice because there are many pictures included in this book of Doreen and her friends that go "mermaiding" with their swimmable mermaid tails. It is also in hardcover, which I like more than paperbacks to keep it in good condition for longer. Mermaids 101 isn't a large book, so it can easily be read in one sitting. As a very big fan of Doreen Virtue, I am quite sad to say that this book does not live up to my expectations of her as an author. It isn't a bad book, but it isn't the top quality I am used to getting from her books. It felt more like a story and photo book of her and her friends in their swimmable mermaid tails. She does offer good information about mermaids, but it isn't as in-depth as it could have been.
