See No Evil: 19 Hard Truths The Left Can't Handle

Synopsis

Liberals take great pride in their supposed openmindedness. Yet when it comes to hot-button issues like radical Islam, global warming, and abortion, "openminded" liberals go to great lengths to discredit and suppress the ideas of their opponents. Breitbart senior editor Joel Pollak exposes the 19 key ideas that today's liberals are desperate to suppress, revealing the blatant hypocrisy of leftwing leaders and pundits who preach tolerance but practice intolerance.

Customer Reviews

The author lays out not only the inconvenient, uncomfortable truths that the Left wants to wish away, but WHY the left (and voters who lack discernment) ignore and deny these truths. In Part I, we read the words of one left-wing operative (R. Creamer), "When presented with facts that are inconsistent with the frame through which people view the world, the frame will generally win, and inconsistent facts will be discarded or discounted. That's why our top priority has to be the relentless repetition of our frame." The Left knows that people get stressed over evidence that what we believed to be true is not (you'll see much demonstration of this stress in the emotional reviews of this book). Not only that, we often accept a belief because it makes us feel better about ourselves to identify with the ideas of the Left, even if they're nonsensical, false, ineffective or damaging, and for that reason, we don't look closely enough to see that they are. This book is divided into three parts: "Suppressing Dissent," "Suppressing Debate," and "Suppressing Truth." In each of these parts, there

are 6-7 chapters dealing with specific topics that liberal message-makers seek to control using the toolbox methods of personal attacks (those who disagree are stupid or evil), straw-man arguments, name-calling, intolerance, exaggeration, rationalization, and lies. The book is rife with examples on a variety of issues, including radical Islamic terrorism, gun rights, minimum wage, climate change, American exceptionalism, Christianity, poverty, race, immigration, and more.

"The politics of constant grievance and protest is not manly - nor is it womanly. It is merely adolescent ..that includes the president, who would prefer to mock opponents from afar rather than face them in person - in a classic example of machismo masquerading as masculinity." - Joel Pollak
No better way to paint an accurate picture of our emasculated, thin, smoking racist in the White House. No balls, childish, race-baiting, and spewing forth lies from afar to divide and conquer. This book is more of a memoir of the embarrassing, deceitful, mob-mentality life of the left. I would strongly suggest you read this book, then turn on CNN and/or MSNBC and watch them every night for a week and you will see these vermin morph into something like a highlighter for this book. Pandering. Outright lies. It is truly comical. I have one complaint about this book, and it is from the chapter on Israel. To defend their right to be there, as a sovereign, you must lay out the history of the Jews in that region for the reader or it remains a game of "it's mine, not yours". I'll do it now for you, Joel. Truth: The peaceful, hardworking, tolerant Jews were well-established in Medina, Mecca, Jerusalem, and every other major hub in the region for centuries prior to the "prophet" Muhammad synthesizing a fable, an amalgam of Judaism and hookah-inspired yarns, and trying to sell this lie to the peaceful Jews as the one and only "religion". When the Jews said, "No thanks, pal. We like our religion. You may worship and live among us (even with your 9-year-old wife) but we are Jews and Jews we will stay." So what does any peace-loving, self-proclaimed prophet do when someone tells him kindly that they have our own religion?
