What if after reading this short guide, you will be able to attract the girl you want, just sitting in a DOMINANT position or walking like a real badass? Trust me, body language is really that powerful. You should already know that human beings are constantly reading situations and other people so that, really quickly, they can know what category put them in: low status, middle status, or high status. It's just a survival mechanism, because you have to know who has the power and who hasn't. That's something that's been hardwired into us over thousands and thousands of years. So, most people don't trust words, because we've been taught from a young age to lie with them. They prefer to read those status cues through the body language: THAT is the honest signal! High status body language = high status person. It's that simple, and we trust it. Once we make the decision or opinion about that person, it's almost impossible for us to break it. Therefore, your body language is the UNSPOKEN TRUTH. When you have a high status body language, people conclude that you are in CONTROL of your own reality. Remember this, my badass friend: "The body follows the mind, but the mind follows the body even more." Having a high status body language will make you have a high status mindset all the time: this can CHANGE YOUR LIFE FOREVER. In the NEW 2015 edition, you'll also discover the secret ways used by Hollywood actors to improve their WALK... ...And yes, since you're an action-taking badass, you have my permission to apply them and become even more attractive in a matter of seconds! Now, this is what you'll discover in Body Language Training: Why a High Status Body Language Is So Important For Your Life The 10 Foundational Principles of High Status Body Language My Best Tips and Tricks for Always Displaying a Powerful Body Language The Secret Badass Body Language Training What Your Walk REVEALS About You How To Make Sure She Finds Your Walk Sexually Attractive How To Get An Incredible Confidence In Your Walk And Much More! ## Customer Reviews

Almost no content. What little there is, it is painfully obvious the author has little insight and nothing to offer. Even worse are the obvious fake reviews. Something I feel very strongly about that should ban everyone involved. Ban the author. Ban every single person who is a professional reviewer or friend of the author. Should give serious consideration to extending the refund function to digital goods. Most people would avail themselves of it. Don't get me wrong, I'm a big fan of self publishing but there is a fine line between a self published book of worth and pumping out garbage to see who is willing to risk a couple of bucks on the off chance the author might know SOMETHING.

I seldom read books that are written from a man's perspective but this book piqued my interest. I find Robert's writing style unique and engaging. He was able to discuss in detail the art of body language and I find some of the tricks and tips he provided helpful not only for men but for the female audience as well.

I bought this book because I honestly have a low self-esteem and I tend to be an introvert in most cases. This book is a great read for any guy who's struggling with attracting the women he really

wants and doesn't want to be sleazy. It explains eye techniques to use boost one's physique and put impact into every appearance in a room. I am already feeling confident for my next date. I'd definitely recommend it for confidence building.

Body language is the "unspoken truth". Now a days people tell too much lies that they no longer believe the truth of other people, because they think that others tell lies as well. Body language however, is what they look up to and judge you with. In this book, the reader is taught how to train their body language. There are some really clean tips in this book. What interested me most were the "extras" at the beginning and ending chapters of the book. Those other books look really interesting and I look forward to reading them.

This is a great book to become more confident. At work, sometimes we don't get to deliver the message right to people because we lack the correct body language. This tips are very helpful to people who want to appear and feel more powerful and confident. Great book!

This book tackles about the basic body language techniques for men. The texts are presented in a simple and a little naughty way (talk about crotch talking). Nothing special or new science but a known and classic fact about men, practiced for centuries by powerful and influential men around the world. Pretty straightforward albeit sometimes, there are parts that are shallow in contexts. What I just don't like in this book is the way it was written, never read lot of "crotch" before in one book. Anyhow, it is written to send a strong message to men, to be confident about themselves and start to act like a powerful man.

This is an incredible book. I have to admit I was highly skeptical at first but wow was I blown away. I have tried as hard as possible to alter myself in public to show some of the traits talked about in this book and I have had a ton of success which has made my transition towards becoming more confident even that much more easier and fun. I highly recommend this book.

While the tips in this book are geared toward men, women can use some of the same tips to gain respect in their lives. With great information on how body language says so much more than words that you use, this book has everything a man could need to get a woman. I definitely will be passing this book along to my male friends.
