# The Essential Gandhi: An Anthology Of His Writings On His Life, Work, And Ideas

## Synopsis

Mohandas K. Gandhi, called Mahatma (â œgreat soulâ •), was the father of modern India, but his influence has spread well beyond the subcontinent and is as important today as it was in the first part of the twentieth century and during this nationâ™s own civil rights movement. Taken from Gandhiâ™s writings throughout his life, *The Essential Gandhi* introduces us to his thoughts on politics, spirituality, poverty, suffering, love, non-violence, civil disobedience, and his own life. The pieces collected here, with explanatory head notes by Gandhi biographer Louis Fischer, offer the clearest, most thorough portrait of one of the greatest spiritual leaders the world has known.â œGandhi was inevitable. If humanity is to progress, Gandhi is inescapable. . . . We may ignore him at our own risk.â • â “Dr. Martin Luther King, Jr. With a new Preface drawn from the writings of Eknath Easwaran In the annals of spirituality certain books stand out both for their historical importance and for their continued relevance. The Vintage Spiritual Classics series offers the greatest of these works in authoritative new editions, with specially commissioned essays by noted contemporary commentators. ## Customer Reviews

This book is a collection of Gandhi’s writings linked together by a biographer. The writings are taken from many different sources (including his autobiography) which I found produced a slightly disjointed reading experience. I found his autobiography (called *The Story of My Experiments with*

Truth) worked much better for me. In this book, which is written entirely in his own words, we join Gandhi on a journey of self-discovery as he relates experiences and learning lessons which were important during his life. His mission was to seek truth, which he achieved through conducting experiments on himself and then appraising the results. Gandhi was one who never followed the crowd. He felt they didn't know where they were going. He preferred to trust his own judgement and soul, rather than blindly following other people or their beliefs. This did not mean he rejected all commonly held beliefs but he always cross-examined them fully before finally accepting them. He urges us not to follow him, rather to seek the truth for ourselves through our own experimentations. After all seeing is believing. He found that uncovering the truth was not always popular as many people are resistant to change, preferring instead to maintain the existing status quo either because of inertia, self-interest or misguided beliefs. However once the truth is on the march nothing can stop it. All it takes is time to achieve traction and gain momentum. As Gandhi says "The truth is far more powerful than any weapon of mass destruction". His autobiography confirms to us that the most important battle to fight is in overcoming one's own demons, fears and insecurities. It is all too easy to blame people, governing powers or enemies for our actions and wellbeing.
