Customer Reviews

I downloaded the first book free and after reading it, I was hooked. I immediately purchased the series and completed in a few days and I am now hanging on by a thread for the next book. The books are great and well written. The books have some humor, personal struggles and the murder mystery with a fight for justice. To top it off there is a smidgen of romance kept in the wings to keep you hoping Jack and Replacement (Alice) take that last step. I read a book every few days and I can tell you Christopher Greyson is now one of my favorite authors.

So glad I purchased these mystery thrillers. Excellent writing, no typos, editing was great. Of all the books I have read these books were my absolute favorites on so many different levels. I am now about to read Data Jack. Awesome series of books!!!

I often grab a book of this type from Amazon in hopes that I will connect with a new author, usually without success. However, Mr. Greyson has created characters, situations and themes that resonate with my desire for well-defined protagonists, concise and clear story lines and effective prose. All of these books are winners in each category, and he has now become one of my favorite authors. I look forward to new releases and anxiously await the continued character development of Jack and Replacement, including their back stories, in future releases. I cannot recommend this series highly enough.

Like many readers, in the past, I tended to concentrate on the very well known authors such as Anderson, Baldacci, Clancy, Grisham, etc. I still like their books but the Kindle books opened up a whole new captivating and interesting reading adventure with newer, to me, authors and characters!! The Jack Stratton series exemplifies the type of stories I like best. It has action, intrigue, suspense, book continuity and personal relationships which are captivating. Of some of these series mentioned below which also fit this style, IT IS THE ONE WHICH LEFT ME FEELING REALLY SAD THAT THE NEXT BOOK IN THE SERIES WASN'T AVAILABLE!!! Rose Gardner mysteries, Savannah Martin mysteries, Kate McCall mysteries, Justice Seekers, Lacy Steele mysteries

This is one of the best collections of a book series I have ever read. I started with the first one and when I realized there was a collection I had to have them all. That's saying a lot for me. I love reading and these were some of the best and can't wait to get the next one. Jack and Replacement are awesome. Lots of good twist and turns with REAL love and romance to boot.

I really enjoyed books 1-3. The books had a good story and were well written. In book 4, however, or maybe by book 4, I found the main female character so annoying and I kept asking how can he stand her?! Because she makes him pasta once or twice? He went from playboy to whipped boy. A bit of a spoiler alert: she cries and is rude, it's okay for her to demand privacy but not him, she removed all the cards off Jack's flowers in the hospital because she didn't want him talking to his ex (earlier book), brings a dog home without discussing with Jack then asks if the dog can sleep in his room, she gets Jack fired (earlier book), she's 8 years younger, goes around tasing people, beat up

his ex when she was 12,... I just don't get it. All of the other characters love her also. Even Mrs. Stevens after she let her think something was wrong with her. The other female characters were so much more interesting. Also, I'd say at least a half dozen times the author says "Jack is a good man" or "jack is a nice man." We get it. You don't have to tell us and repeat it. Maybe I was bored and couldn't focus but I really didn't get this 4th book. When there only a few chapters left, I figured out who did it because it was the person you weren't supposed to guess but I felt like the book didn't plant any clues and laid out some bizarre contrived theme related to (spoiler) big men with big dogs. I truly enjoyed the first three books so disappointed I continued onto the 4th.

I got the first book for free and got sucked into the story line and writing style. Really enjoyed the fast paced books....and now even have him on my wish list to make sure I find other books he has written.

These book are really enjoyable reads. I read them one after the other (I had some downtime due to a surgery) and found the characters well developed and realistic. I live with geeks and cops, in the family, so the personalities rang true. The plots are interesting and not too gory. No loose threads or hanging plot lines. I am looking forward to a continuations of these characters and their lives.
