Customer Reviews

The author has come up with an unusual and provocative plot, quite exciting. He has also contrived some interesting characters. The bad guy is really, really bad., and the hero is a good and unassuming guy who reacted properly when nobody else would. It is difficult to wait for developments as the plot progress very slowly .That said, I sadly have to admit that this is one of the most aggravating and boring book I have ever read. One has to plow through dozens of pages of the characters' thoughts before the plot advances an iota.He is not a bad writer, but the book is full of cliches (the people suffering adrenaline rushes are legion), and the outcome is predictable. The most aggravating thing is having each of his characters ruminate endlessly in stream of consciousness fashion about their situation in chapter after chapter.I never had to skip through so many pages to find where the plot even advances a tiny bit. This goes on endlessly throughout the book, until near the end when he actually seems to advance the plot without having each character muse to themselves forever.He devotes entire chapters to characters' dreams, without much,, if any, relevance to the plot.Violating the rules of English, he does not seem to understand that each bit of dialog is supposed to be written in separate paragraphs. Instead bits of dialog are buried deep in multi-page long paragraphs. Thus, in paging through the dross, I had to be on the lookout for those little quotation marks buried in all the trivial thinking of a character, to find anything that was happening.The facts I mentioned in the first paragraph would make the book deserve a four-star rating had he only written a tome without all those pages of useless pondering of the characters.
