## Customer Reviews

Crystals and Healing Stones is a really great introduction to the powers of all natural crystals. My daughters have found a passion for this and I'm just learning. And this book has inspire me to want to learn more!It's informational, well written and offers great insight into the powers with these healing stones.I really enjoyed learning from this book and you will too! Well Done!

As someone who wanted to brush up on crystal use, and as a writing coach, I believe the writing coach won. Each crystal, with chakra, meditation and carrying effects took up less than one page. I could make a proofreading list where I identify several errors in each paragraph. The author seemed to find complicated word choices when a simpler word would work. There were many typos, formatting, spelling, sentence structure issues, repetition and much more. The biggest concern I had was the author gave no distinctive description of the stones. Without using the full page, there was room to describe the stone and characteristics.I gave it 2 stars as it did meet the quality of a "Beginner's Guide"

Great read about crystals as well as the different healing crystal ability. This book has been very helpful and gives a great introduction to crystal healing.I find this book Very informative and a must

read for all who wants to know about crystals and their healing powers. A lot of information packed into this book I would highly recommend it to anyone interested with crystals healing.

This is an Awesome Collection Book of Crystals. For me, this is an Amazing Book. Michele has done an amazing job in creating these collections of Crystals, telling us what those crystals mean, how it can help us with our daily lives, and how we can dispel negative energies around us. Among all the crystals that are included in the book, these are the ones I would like to try:- Citrine - because it's cleansing mental worry and troubles, and it builds better friendships- Jade - because Michele says that this crystal, is for 'love'- Jasper - because it can make you be calm, relax, and safe There are so many crystals that you can choose from in this book, whether you want leadership, for travel, courage, abundance, and many more, there is a right crystal for you. I highly recommend this book to everyone who wants to know more about crystals, what they can do to our lives, and how it can give us positive energies and dispel the negative one.
