Synopsis

Do you have an inner knowing that there is more to life? Would you like to identify your soul's true path? Are you compelled by a desire to contribute more meaningfully in the world? In this remarkable book, Linda Howe reveals how to effectively make the shift from ordinary to ExtraOrdinary living—a life suffused with purpose, aliveness, and light—through the Akashic Records. The Akashic Records can be understood as the "Cosmic Chronicles of You": an energetic archive, or dimension of consciousness, that tells the story of your soul's journey through space and time as a human being. By learning to access this dimension, you will gain insight into your earthly experience and discover how to transform your life into one that radiates light and magnetizes good. In these pages, enter the inspirational, fascinating realm of the Akasha with Linda as she shares her very accessible and student-tested processes designed to facilitate your awakening to your true identity and soul's destiny. Explore the essential consciousness concepts of the Records, excavate the obstructing beliefs on your path, and learn how to realign to your soul's highest purposes. Meditations, or Akashic Reflections, guide you every step of the way. Application of Linda's teachings is guaranteed to make a critical difference in your life right here, right now. An ExtraOrdinary life is within your reach! What are you waiting for?

If you have never heard of Linda Howe, or do not know that she has written two previous books on the Akashic Records, that would be fine, because this book stands fully on its own. From it, you can learn to read your own Akashic Records, make use of the Records for your own healing, and then Linda will bring you through one of the most difficult aspects of being a spiritual practitioner in today's world: how to live your practice in everyday life. And she doesn't stop there, as the last section contains a template for upliftment, the search for which is why many of us made spirituality a priority in our lives in the first place. And if you have heard of Linda, or know her first two books, this one is a natural successor to those. Together the three books take the student through a time-honored path of establishing a soul-level foundation that with practice can be the reference point for everything that happens to us as humans. The healing work of the second book builds on that foundation with instructions on healing the patterns that cause us pain. And then this book shows, with wisdom and originality, how we can change some of the meta-patterns that are not necessarily personal to us but which we have adopted. The sections on authority and responsibility hit very close to home for me, and have given me a basis for reworking some negative attitudes that I was barely aware of. Linda's work is deceptively simple, and so is her writing. This is another easy to read book, but like the others, it is also a reference work. I also think more of Linda's classroom personality is evident in this one. There is very little filler here, and there is actually a great deal of material to absorb.
