## Customer Reviews

Have you ever made an important decision, based upon all the information you thought was available to you, only to encounter utter disaster afterwards? *Self-Mastery and Fate With the Cycles of Life* can actually prevent this scenario from happening. This is truly one of the most remarkable and useful volumes I've ever encountered. The author (Dr. H. Spencer Lewis) explains in great detail a cosmological system that will give you much better direction in making important decisions. The system is specifically based upon individual periods of YOUR life, such as times of the year and day (as well as other time periods), and how the appropriate time periods pertain to your decision making processes. The system is easy to learn (but it is NOT for "dummies"), and I know from personal experience that it WORKS! I consider this work to be one of the most valuable books I ever owned. I recommend that you buy a copy and study it for yourself. You will be glad you did.

I have owned this book for 7 years and have lived my life by it. Every event described has been surprisingly true. I have not been able to prove it wrong. By outlining my yearly cycles as described in this book, I can make the right decisions and plan for the good times and the bad times. This book has helped me be successful in everything I do by telling me the right time to do it. Mike

I must admit I was suspicious when I purchased this used beat-up old book from a used bookstore but there was something about the title that grabbed me. So I purchased it. And what a treat!!! Once you get past the first few chapters that are advertising the rest of the book, the author begins to share rhythm and patterns of time going from large to small cycles. Moreover, he then talks about the energies available at certain periods. So far, I am half-way thru the book and I am taking steps to incorporate the teachings in my life. But since I've been journaling for over 15 years, I am beginning to see the episodes that I attributed to chance and coincidence being more a part of the cycle I was in at that time in my life. Eventhough, the writing is ok at best the quality of information present in this book makes it a 5/5.

This book can teach you to have more control over your life by using the system that is outlined in the book. I have used it for quite some time now, and it works. If you notice that you feel more stressed at certain times of the day, this book will tell you why. Not only will it tell you why, it will help you to overcome it. This book can help you master your life.

For those people who can see patterns in their lives and that have the understanding that everything is a cycle, this book is an invaluable tool. It seems to align with *The Life You Were Born*

to Live by Dan Millman, only it fills in some of the missing blanks. A must have.

If you had known HOW to use chart D in the book , you would have gone "short " in the stock market after 9/11 .I did. As for travel , it was a very good day to travel away from new york. The first news accounts said that over 5,000 people are in the World Trade Center every morning.Well, 3,000 traveled somewhere else on that day.---Use it before you knock it.

AMORC is a great way to learn about the universal laws that are in place in every life form in the universe. This particular book has excellent references and information that anyone can understand. Great book.

This rare book is the best guide for make my personal, financial and business decisions 4 years ago. I would like to have this excellent book before because I am sure that with it's help I made better choices. Anyway If you want to escape from the affairs of the "luck", study this book and you will find that "there is a correct time for each thing".....It works!!!!!! How do you feel, and how are your things into the last month before your Birthday??? I am sure that the answer is not very optimistic,....but it can be fixed, look into the book why. This book contains cycles for your business, health, and much more. it is an simple and easy way to go safe by the life.Some of things I will leave for my son when I go away from this world it this book.
