The Hermetic Kabbalah

Synopsis

Before there was modern science there was another way to comprehend reality. When someone wanted to discover deep and hidden secrets about nature, they would study ancient books and traditions looking for divine revelations, seek out scholars and teachers, and perhaps summon and talk to spirits or angels ... This ancient wisdom (and it was the best knowledge of its day) has come to be known as the Hermetic Tradition. It is an intellectual and practical tradition dating from the late Roman Empire, and it viewed the Cosmos as a living being composed of living beings, a whole composed of parts, like the human body. The tradition was founded on an intuitive view of processes at work in living things, a dynamic of relationships, connections and interactions, a world of qualia and imagination, all set forth in startling visionary metaphors of giant androgynous beings and sexual dynamics. "The Hermetic Kabbalah" shows how the tradition has developed through two millennia to the present day, its ideas intertwining with Jewish mysticism and Kabbalah like the serpents in the Caduceus of Hermes. It includes a detailed exposition on the Kabbalistic Tree of Life, the ten sefirot, and many other traditional themes including the Partzufim, the Primordial Adam, theurgy, and ascent mysticism. It also describes the Rectification of the Soul, in which the soul is awakened to an understanding of its place in the Cosmos. Profusely illustrated, with over 60 diagrams and illustrations, this book is a distillation of a lifetime of study and practice.

Book Information

Paperback: 464 pages

Publisher: Digital Brilliance (June 12, 2015)

Language: English

ISBN-10: 0993303404

ISBN-13: 978-0993303401

Customer Reviews

This is the most sophisticated and well-composed presentation of a "and commentary on a "Hermetic Kabbalah I have ever read. Colin Low is philosophical, even spiritual, yet ever worldly wise. He has

an impressive command of the whole cloth, yet he is a keen observer of those day-to-day things that form the threads. Throughout, Low is accessible, even when describing the most arcane aspects of kabbalah and the streams which rush around it. In this, his manner of description and the connections that he draws are highly original, though in a way that leaves one muttering, "Oh, of course."

I've been reading Mr. Low's writings on Kabbalah since 1990. He knows his stuff. Now he's written a classic that all students of the arcane and mystical arts need to complete their libraries]. The insights revealed are profound. Whether you study Kabbalah from the classical perspective or that of a magickal practitioner -- this book is essential. [[ASIN:0993303404 The Hermetic Kabbalah]

This is what I have been looking for. The real Kabbalah, not New Age nonsense. Its relationship to the understanding of the Bible is a satisfying plus for me. I recommend to anyone wishing to gain a deeper understanding of Judeo-Christian religious doctrine to buy this book.

A thorough history of the origins and practice of Kabbalah. I place it beside Dion Fortune's treatise Mystical Qabalah.
