Igniting The Sixth Sense: The Lost Human Sensory That Holds The Key To Spiritual Awakening And Unlocking The Power Of The Universe

Synopsis

The Sixth Sense: a forgotten, hidden key lying dormant within every human..Is it possible to:- Influence reality with the power of thought?- Push into the universal mind, vastly increasing your intelligence?- Easily reach peak states for real, breakthrough spiritual experiences?Indeed and much more. This is not just another fuzzy New Age book about a magical, vague 'sixth sense'. Igniting the Sixth Sense deals with the magnetic sense that allows birds, whales, bees and many other animals to detect and use magnetic fields in ways that seem impossible for humans. Yet, we possess this same natural ability. What happens if you combine a modern human with an active, magnetic sensory? They display skills and abilities that seem, at times, super-human. Eric Pepin, the #1 spiritual bestselling author of Meditation within Eternity and The Handbook of the Navigator, takes you on a journey where you will discover:* How to access a larger memory beyond your own; the Akashic Records* Discover the method of magnetic prana attraction that makes the entire Universe react to who you are and what you want* How to enhance every mind, body and spiritual technique you practice. Including meditation, martial arts and more* The 15 minute miracle that gives you nearly unlimited amounts of energy* How to create a 'psychic buffer' so you aren't overwhelmed, harmed or influenced by the energy and thoughts of others* Learn the secret to programming your own energy field And that's just the beginning. There are 280 pages worth, packed with in-depth knowledge and effective techniques you can easily apply. It's all here, and it works.

Customer Reviews

The book *Meditation within Eternity* was the foundation. This book is the launching pad. I have never seen such powerful knowledge printed in a book. The "High Guard" chapter on energy defense was extremely informative. I imagine monks practicing the techniques in secret in a monastery. The two techniques were extremely well explained and I felt them working on my very first attempt. The "Akashic Records" chapter was even better. Edgar Cayce work gave me some understanding but a very different expectation. Eric's description is much richer and more detailed, including some information about how might try to approach this kind of knowledge yourself. I can only imagine how this kind of information might change the world if it becomes more widely known. And "assimilation"? Is this a scientific explanation for "skin-walkers"? It explains so much. The chapter on raising spiritual children is my favorite. I can't remember another spiritual book covering this topic that is important to those of us with kids. At times, this book can quickly move from topic to topic, but each short topic is jam-packed with information to consider, meditate on, and learn from.

I was first introduced to Eric Peppin a few years ago when several people were debating whether his material was better than Holosync. There are people on both sides of the argument, and I can't give a final answer other than to say most people rate him either 1st or 2nd place, either is outstanding. What I can say is that his material is very thorough, and is some of the top rated material on spiritual growth and meditation. What is great about Peppin is that he is not stingy with his work. Many people give only partial material and then lure you to buy more material to get the rest of the information. Peppin does not do that, his work is complete, and this book is not exception, coming in at almost 300 pages. You don't have to buy this and then buy more of his material to get a full course, it is all here. On a side note, I once scratched my CDS from his program, I contacted customer service (over 3 years after the purchase) and told them my dilemma. They forwarded me all the recordings for free and said, "Welcome back." Total class act!!

Riveting, Astonishing, Revolutionary Truths - that will blow your mind and make you question

reality. This book contains knowledge so powerful, it will shock you to the very core of your being and stir an ancient part of yourself. Say goodbye to the black and white world you once knew, you will not finish this book as the same person you were, when you started it. I once managed a metaphysical book store. Nothing and I truly mean --Nothing-- at all, even remotely compares to this book! The Author Delivers New, Ground Breaking, Never Before Heard of Material! This book changed my life in a very positive way~It seems Impossible to NOT have your Sixth Sense Ignited after reading this book!

As a follow up to Meditation Within Eternity, Eric Pepin expands upon the knowledge that he has previously given to further develop your spiritual consciousness with Igniting the Sixth Sense. The depth of understanding how your thoughts affect you every day will help you in all aspects of your life. He also explains the importance of the Sixth Sense in your spiritual path, the missing sense that has been hidden from most spiritual seekers. You will learn easy-to-incorporate techniques that will help you to develop this forgotten sense, as well as practical ways to defend yourself against negative energy that you encounter every day. If you are seriously seeking the next level of your spiritual development, I highly recommend this book. The knowledge and techniques contained in it, when applied consistently, will accelerate your consciousness beyond imagination.

Read Chogyam Trungpa Rinpoche's "Cutting Through Spiritual Materialism" before purchasing this book. There are some subtle spiritual truths to what he writes, but a lot of misinformation and a lot of ego. The ego part is a trap and can cause a lot of suffering on the path of spirituality. This author seems to think that he is privy to some special knowledge and has even created his own body of teachings. While he may have had some profound experiences, it seems his ego has taken claim of specialness. Be wary of the information unless you have a very strong grounding in your own spiritual path and are able to discern the subtle truths. Playing with astral energy is dangerous and can have unintended consequences. If you are not on a spiritual path, but just curious, it would be wise to question why one would want to dabble in the unseen phenomena but neglect spirituality.

Armed with the essential knowledge and groundbreaking techniques provided in this book, you're sure to far surpass any of the "professional" psychics! You'll learn everything you need to know about psychometry, clairvoyance, the Akashic Records, psychic defense, and so many other techniques that you've probably never heard of!

Another life changing book by Eric Pepin. I've read a lot of books lately on these types of subjects and they all seem to sound the same. This book is not just another one with words that just repeat what all the rest say. You can feel the truth in his books. Thank you
