## Customer Reviews

I rather enjoyed this book. I would have given it 5 stars, however, there were some pretty big editing mistakes, such as this: "for a fishing touch, he added a small amount of flour to thicken the sauce", and worse (and unforgivable), a character’s name changed from Fred to Frank. How do you forget your own character’s name? That’s just ridiculous. Otherwise, it was refreshing to have a storyline where the main character was clueless when it came to survival. Especially when I just got finished

reading a book that was so unbelievable it was almost unbearable to read. No one is perfect at everything, but the writer would have us believe her main character was. In this story, the main characters are just regular people with no major advantages over anyone else. The only unbelievable part was the battery operated clock that supposedly still worked. Oh, and how much damn propane does he have?? I mean seriously? Otherwise, bravo! I cracked up picturing him walking to Covington in those pink boots!

Took awhile but after getting interested in it I cant wait for the next one to see what happens to Bob , Dizzy and Lettie....didnt care to much for the smartmouth Violet....if one of my grandkids talked like that they would be getting a serious attitude adjustment

I've been reading post-apocalyptic books this winter and really enjoyed this one. Many of this genre border on the absurd with their right-wing cliches, and manly-man heroes who blow people away left and right without a care in the world before returning to their fortress stuffed to the gills with "prepper" supplies. This book is very different. The characters are a bunch of seeming misfits with complex backstories. The hero of the story begins the saga completely in over his head, but muddles through largely through the generosity of his neighbors and a good dose of luck. The story takes place in the Upper Peninsula of Michigan, and is illustrated fairly accurately. Aside from a number of editing errors (a problem nearly that's epidemic in this genre), this is a fun, thoughtful, believable look at the apocalypse as it plays out in the Northwoods.

The MC is depicted as a total noob to the outdoors and would perish if not for his neighbors, who feed and try to help him. A quarter of the way in, I was hoping someone would shot him and take the burden off his neighbors. Also, although his age is supposed to be 25 he acts more like a 15 year old. Couldn't finish this book!

Down to earth story telling. Chronicles the growth of a survivor after a grid meltdown changes his and everyone else's world. Well written and fine character development through out. From an ill equipped city slicker to a strong yet naive survivor this tale touches upon truths many of us don't have a clue about.

I enjoyed the storyline it seems to me to be developing very well. The author is not rushing the story and takes time fleshing out each character. Moves a good steady pace. The only detrimental issue

is Violet who has a motor mouth and at some point either it will cause severe problems. Good book. Buy it from [as I did](#), you will enjoy it also. Kindle Customer Ward

This was a little different than other "end of world" stories. The main character is clueless but, not dumb, he is alive at the end. As I read it I thought it read as though the main character and me (the reader) were sitting around a camp fire and he told his story. As not like a novel with perfect sentences, language. This book did not have that. This was more of a little street slag as people use as they talk. Using words like shells for ammo, clips for magazines. For me, I enjoyed it. It was a 1 night read, maybe to short for some. I already purchased book 2.

Really enjoyed this book all the characters were down to earth, warts n all!! Was really annoyed and disappointed to find there were no more books in this series yet, come on Author, get your finger out.
