## Customer Reviews

I have read a variety of books by this author, and I have to say this is one of the most interesting of all. In a small town of 772 people (maybe a few less by the time this book is over) everyone knows everybody's business. People gather at the coffee station at the hair salon to share gossip, er...news. When a very likeable girl is found murdered and cruel words painted on windows (and windows broken) it doesn't seem likely to be related. But by the end of the book you discover the crimes are connected, and our local salon owner is the one who figured everything out when the

police failed. This is a refreshing book where salon owner Savannah keeps thinking and doing things to figure out what happened. I liked her calm and collected methods of doing what needs to be done and not being forceful or flashy about her sleuthing. Characters came across as real people, situations sometimes comical, sometimes horrifying, and details rich with description filled the pages. This is unlike any of the author's other works, this in my opinion is one of her best and not to be missed!

This is the first book of a new series and I am sure there will be many more to come. It has great characters, vivid and realistic. An interesting story and a strong leading character who follows thru till the end. It is another great job by Constance Barker. I received this copy in return for my honest review and honestly you should read it.

As a member of the ARC I am giving an honest review, it was a great book, at first it was slow, for me, but then it picked up, I am going to venture out and say that the violence that was written in the book was really hardly any violence at all, yes a murder was committed, but that happens in any mystery book, but it wasn't a gruesome one, and glass was broken and some words were written on them but that was it. And as it was my understanding this is the first book of this series so it is a good one, and it is funny it had my laughing until I cried. I personally don't really like telling what it is about because it ruins the books for some people, others already give the storyline, what I like to do is give the feel of the book, so here goes, the characters are done well, the plot is slow, but it does pick up and move quickly afterwards, I have read other books from this author and they are wonderful books and I do hope she comes out with a second book for this series, and I think she does....so if you follow this author I would recommend you get this book it is worth the read....

If you're looking for a book about a small southern town and it's quirky inhabitants, this book is for you. When murder shocks their town, Savannah, owner of the local beauty salon, with the help of her employees and the townspeople who gather at her place of business to share "news", decides to investigate. This story brings to light the age old question of "Do we really, truly know a person?" A very interesting read by Constance Barker.\* I received a copy of this book from the author in exchange for an honest review.

This is going to be a great new series by Constance Barker. The characters are quirky and relatable. Well, being from the south I can relate to them, especially the small town part...you feel

you know everyone and everything...then WHAM...you don't really know everything. There is intrigue, maybe not nail biting, but surely nail trimming or painting. There are chain saws, shotguns, moonshine stills and a tan trench coat...all wrapped around a beauty shop and some great gossip. I was given a copy of this book by the author...I hope she has many more books to write as I have lots more time to read great books!

I picked this book for a cheap price. I totally enjoyed it. Since this is a first in the series I will be looking to continue reading it. Set in Louisiana it involves a murderer of course. The owner of a hair salon Savannah and her friend decided to find out who murdered a woman named Annie. Everyone like Annie but find out she was not such an angel. It's a fun read, with bayou, stills and whatnot. Read it and enjoy.

3.5 stars Unanswered questions. Easy to follow but does not tie everything together. Maybe one needs reads a complete series back to back. Interesting storyline. Believable characters with distinct personalities and thought-provoking, snarky dialogue.'Nellie came in and said that all her boys were back home at last, and the house was back to its usual chaos.Sarah observed that Nellie's boys were wild animals, so living in her house must be like living outdoors.Nellie allowed as how that was true.'No desire to re-read this story. I may be interested in other works by this author.

I got this as an ARC in exchange for an honest review. I was very excited for the chance to read the first book in a new series by one of my favorite authors early. I was hooked from the very beginning and I loved getting to know the characters. There was so much detail and interesting things happening I couldn't put the book down. I hope there will be many more in this series, there are so many interesting characters and I can't wait to read more about them!
