I'm a 18 year old senior in high school, and I love to read astrology. Me and my boyfriend were

reading it together and the things that it was saying were so true. He tries to hide the book from me now, claiming that I'm learning his secrets. :) And I even have teachers and other faculty wanting to borrow my book!!! It's so funny how on point this book is! If you know you are looking for someone who is more of your sexual "taste" you MUST read Sexscopes!! This man is a genius!!!!

My girlfriend swears by the stuff this astrology guy writes for Cosmopolitan so she bought Sexscopes the minute it came out. The cover looked dumb to me so I wasn't interested but I read some anyway. Man, I was TOTALLY surprised. This book is raunchy, wild and hilarious. The sex advice was over the top but for the most part it was pretty much on target: My other half is a Scorpio and let's just say we had a great evening in bed. If you get embarrassed talking about sex, I'd say avoid this, but if you're okay with it, you'll love it. If you've got kids, keep this book locked up. All in all, its a fun, rocking ride--check it out!

Sexscopes is a good book. I own both Martine's "Sexual Astrology" and the book in question, "Sexscopes". I would give this one a lot more credit than from the reviews I saw while I was shopping. Sure, the language is a bit childish, but the fact that the language is so playful and full of colors makes this a lot easier and faster to read. Comparing the two, "Sexscopes" was a lot more precise to what I've personally experienced than what Martine had to say. Not to mention Hazelton definitely has more of a modern touch to it. I think my money was better spent on "Sexscopes" than it was on "Sexual Astrology". In any case, my money was quite well spent on this book anyhow. ~bgmdragon

I just read this book for a second time and decided to send in a review. The astrology is on target 99% of the time which surprised me a lot. On top of that, though, the writing is awesome. I recommend it for anyone who loves astrology or someone who needs to give their sex life a fresh start. Good stuff and shockingly hot too!

I love this book--its funny and easy to read and right on target. I'm a Gemini and Hazelton had me and my girlfriend (a Scorpio) pegged on every point. A great book!

I am a 30 year old female in a long lasting relationship- My boyfriend and I have been experiencing problems in our intimate relationship. I have tried many options to keep the passion going in the bedroom "so to speak." It was not until I read SexScopes that everything seemed to make sense. It

was the perfect tool to solving the mysteries of lust and passion between the two of us.

This book is so amazing. The reviewer who said it was "inaccurate" obviously doesn't know his/her astrology, because the astrology in this book is dead-on. Plus, the information is presented in such a fresh and exciting way. I've always enjoyed Stuart's horoscopes in Cosmopolitan, and now with this book I feel like he's by my side to guide ALL of my relationships. Well-written, entertaining, titillating, informative...this book really does have it all. Don't be surprised if you start hearing the line "What's Your Sign?" in bars again, because I won't be going to bed with ANYBODY until I find out his sign and check it out in this book! It really does rule. Thank you, Stuart, for an amazing read. I can't wait for your next book!

Okay...let me tell you...this book is awesome! I couldn't believe how accurate Stuart was with my sign! I NEVER believed in astrology before this. My friend begged me to read it and when I finally started I couldn't put it down...really. I totally blew away my friends at a party reading to them about their signs from this book....they were amazed at how well it described them. Take it with you to your next party and your friends will love you for it. Anyway, GET IT!!! You will thank me for it!! Bye, and happy reading.
