## Customer Reviews

This isn't Romeo and Juliet, this is Zalgar and Juliet! It's pretty fast paced and keeps your attention, and it's a perfect late summer afternoon read. I received a free copy of this book in exchange for my opinion. If you're familiar with the genre you won't be disappointed - it has everything you expect and more.

The Author Alyssa Ezra has done it again on one of her great books and writing it, This is a great

story with a unexpected ending .Its very easy to follow book as what i call a cant put it down till your finished reading it to see how it ends book,juliet was sort of a boring kinda nerd her ex boyfriend called her and she knew she was just a normal book geek instead of partying and going out she was always a book worm instead,she was going out into space to learn more about the other planets out there until something happened to the ship and landed on a unknown planet that's were she met zalgar.i have received this book for free for my honest thoughts and here they are.Zalgar was a very handsome hunky alien/hunter living alone hiding from war and his people.Juliet and Zalgar spent a lot of time together on his planet from people trying to kill her and him you must read the rest of the book to find out what else happens you wont be dissapointed! lot of mystery and hot steamy sex loved this book ! Highly Recommended!

This science alien fiction alien romance is about a bored female college student from planet earth, who wants to do something with her life, which make a difference. Her space missions takes a wrong turn, when her space ship crashes on an unknown planet. She is alive, but in a hostile and very dangerous environment, where she meets Zalgar Torgu, who is an outsider by choice on his own planet. The guy is handsome, and the young woman from planet earth falls in love with him. As this is a scifi fantasy romance things get more complicated, the love story develops and gets really spicy and our female main character has to make not one, but a series of life-changing decisions. The book got everything you'd expect from a story of this genre, is written well and the story is not as flat, as it may seems on the first look. I really like the book as it is pleasant to read, short and describes a world which is so different to ours. So I really recommend it to all friends of this kind of stories.

Junior Romance - Trite - premise sounded good but failed to deliver. Although there were action and sex scenes they were cardboard - flat & uninteresting. The H&h had limited interaction & relationship building was minute. Their interactions were uninteresting. Again - as an outline - there was a lot of promise. I gave it 3 stars because for a younger reader (sexually active teen or 20 yo) this would probably have been a nice read.

This book is very short, but it was a pretty good read. Not enough time was spent developing the characters and motives, though. There wasn't any transition back to earth for some reason in the last part of the book, either. All of a sudden they were there and everything was just wonderful. This book Could have been so much more.
