Marauder Cygnus: Scifi Alien Invasion Romance (Mating Wars Book 1)

Synopsis

War rages between Earth and Mars, and an alien fleet from a distant star barrels toward our solar system. I'm laying low in the asteroid belt, as far from the war as I can get, but so is one of the aliens. And I'm the first to find him. Second to find him? Pirates. A whole lot of them. The alien kills every last one to protect me, and we barely escape before reinforcements arrive. Now my life is in the hands of this savage, purple-skinned killer. Not all of his skin is purple though, his...thing...is teal. And it's nearly as big as the rest of him. His shoulders are as wide as Valles Marineris, and he's tall as Olympus Mons. His ego is way too big for my tiny ship, but one look from him with that insufferable grin, and my cheeks burn hotter than Venus. He protected me fiercely and without question, but which side will he take when the rest of his race comes to destroy us all? Marauder Cygnus is the first book in the Mating Wars series, but it can also be read as a standalone. Each book in this rock-hard science fiction series has a happily ever after and NO CLIFFHANGERS.

Customer Reviews

This is only the second book I have read by Aya Morningstar and I have to say that this one is my

favorite by far. I really loved how Aya went out of the box in quest to write this book. She not only has an alien, but he is a bear shifter as well. I have to say of all the alienâ™s I have read about they are either just aliens from another planet, or they are Dragon Shifters. But Cygnus is a not only a bear shifter but his bear hibernates, but his is purple with green eyes. Can you imagine a 7-foot-tall purple alien with a teal cock, doesnâ™t like to wear clothes, and can turn into a purple bear? It leaves a lot to the imagination. Once I started this book I could not put it down. It really is one to read. You will not be disappointed. Cygnus is a Marauder and the fleet of Marauders has already been accelerating toward the system of Sol for 20 years. The system of Sol is the home of the humans and they intend to mate them in order to insure the survival of their race. They Marauders have come out of hibernation long enough to reset the engines and Cygnus finds his brother Aegus getting ready to leave the fleet in one of their pods so that he can get to the system of Sol first. He believes that Sol is the end of their raceâ™s long journey. Having decided to follow his brother, Cygnus helps his brother into his pod and Cygnus is preparing to get in his pod when three of his friends try to stop him, but being a Marauder he has to kill them in order to be able to leave without them alerting the rest of the fleet. Having killed his three friends Cygnus launches his brotherâ™s pod and his into space and towards Sol. With the DNA of the bear spliced into them for hibernation it allows them to travel to distant places easier.
