Customer Reviews

I for one have never read a book so in detail about palmistry and therefore decided to try it, I've always thought as palm reading something gimmicky or a way to exploit people for some money however this books method on how to read palms is actually not as straight forward as that and I think it's quite amazing actually, I have yet to fully read it but just flicking through shows the authors attention to detail with consistent grammar and hardly any punctuation/spelling mistakes.It's 5/5 from me.

Found it interesting. I did a little palm reading in my past, but got scared off from it. I highly recommend perfecting before reading others.

Too short very disappointed not more information
