# Soul Mind Body Science System: Grand Unification Theory And Practice For Healing, Rejuvenation, Longevity, And Immortality

## Synopsis

What is a soul? Are miracles real? When the soul is healed, how does the body respond?

Throughout history, there have been countless cases of "miracle" healings, unexplainable by modern science. Dr. and Master Zhi Gang Sha has personally healed thousands of patients, usually in front of dozens of witnesses. Hundreds of videos of these healings can be seen on YouTube. But how can these healings be explained? Soul Mind Body Science System is the first book to explore the scientific explanations for why soul healing miracles are genuine. Written with Dr. Rulin Xiu, an expert on string theory and quantum physics who trained at The University of California, Berkeley, Dr. Sha shares, for the first time, the scientific theories that explain why all actions on Earth are guided by the reality of the soul. In Soul Mind Body Science System, the complex and fascinating relationships present between matter, density, information, soul, and consciousness are thoroughly examined. Written for armchair and professional scientists alike, this book makes a significant contribution to the ongoing debate about the true nature of reality. As the lines between "science" and "spirit" blur, this investigation becomes ever more important. The groundbreaking Soul Mind Body Science System is for all readers who have contemplated the fundamental scientific laws of the universe and sought answers beyond those offered by popular science and mainstream faith.

There is a diagram in the book called The Source Language Grand Unification. I asked for a healing and put my hands on it. I could feel the energy moving inside of me in the area requested! The book gives practices, teaching, personal stories and an explanation of the connection of Soul, Heart, Mind and Body. I am grateful for this long awaited book! It is a great contribution to Science, and to all humanity.

TY TY TY Master Sha for this most amazing treasure that shows us the correlation and connection between science and soul healing. All of humanity has been searching for a long time to see the evidence of how the "soul is the boss" and how you must heal the soul first then the healing of all blockages will follow. This will happen on the physical, mental, emotional or spiritual level. Also to heal financial, relationship, business, and so many more blockages. We are truly Blessed beyond comprehension to have this sacred treasure. Thank you Master Sha....thank you Dr. Rulin. Brenda Gartner

The unification of science and spirituality was so looking forward for the publishing date of this book! As a hobby I have been studying some years about quantum physics and the string theory. The movie "What the bleep to we know" has started these studies for me. As a nurse I had been searching for how to explain healing scientifically. Now this book brings the astonishing possibility to bring scientific and spiritual concepts in relation. Are you ready for a new world view and every day miracles? Let's go!

I have just finished the most amazing book I have ever read. I am a student of Master Sha and I am also honored to be one of the 400 Training to be a Divine Channels in Training. I am a retired teacher and Reiki Master who loves sharing all she knows. This book is such a wonderful mix of sharing how Master Sha and Dr. Rulin Xiu have shown us how Science and Spirituality can join as one. I have been on a spiritual Journey for a long time. Having been through many spiritual modalities I have great respect for all the wisdoms Master Sha teaches us in this newest book. What I love about this book is that it clearly combines theory and practices. Through the book I carefully did all the practices as I read it on the Kindle version. This was also amazing as I could sit in front of the computer and choose what size the printing would be to make it easier to read. I also found that this book beautifully explains each practice and summarizes each chapter so concisely. Through the practices I felt so much energy and healing that I know I will do them many, many times. Each practice gives you insights into the ancient 5000 year old Chinese culture we are so blessed to have Master Sha bring to all. Best of all it now gives those who need to have a scientific reference something to connect with. I truly think this book is the greatest healing treasure we have yet received from Master Sha.
