Ten Little Indians

Synopsis

Sherman Alexie is one of our most acclaimed and popular writers today. With *Ten Little Indians*, he offers nine poignant and emotionally resonant new stories about Native Americans who, like all Americans, find themselves at personal and cultural crossroads, faced with heartrending, tragic, sometimes wondrous moments of being that test their loyalties, their capacities, and their notions of who they are and who they love. In Alexie's first story, "The Search Engine," Corliss is a rugged and resourceful student who finds in books the magic she was denied while growing up poor. In "The Life and Times of Estelle Walks Above," an intellectual feminist Spokane Indian woman saves the lives of dozens of white women all around her to the bewilderment of her only child. "What You Pawn I Will Redeem" starts off with a homeless man recognizing in a pawn shop window the fancy-dance regalia that was stolen fifty years earlier from his late grandmother. Even as they often make us laugh, Alexie's stories are driven by a haunting lyricism and naked candor that cut to the heart of the human experience, shedding brilliant light on what happens when we grow into and out of each other.

Customer Reviews

"but it's way tough on the rez." From *The Life and Times of Estelle Walks Above*. The thing about Sherman Alexie is that he examines life from the inside out. Or maybe it's more accurate to say that he examines life from the reservation out. He has a way of pointing out these specific characteristics and challenges that one faces growing up on the reservation and beyond. But when you pay close

attention to what he's saying (in such beautiful language), you find yourself relating to an emotional landscape that is universal in all of humanity no matter what race, religion, nationality blah blah blah. One is ultimately left with the impression of a genuine and credible storyteller who has experienced personal conflict, triumph, tragedy and joy within the boundaries of the reservation, then again in the vastness of life outside of the reservation and finally within the borderless limits of his own mind on a much higher and more profound level. Don't expect any glamorized depictions of Native Americans or any other kind of American for that matter. He gives you the good with the bad in painfully honest observations and language. For example, in *The Life and Times of Estelle Walks Above* (my favorite story in the book), Estelle, a Spokane Indian and the narrator's mother (and a feminist, militant vegan), raises her son in a poor white neighborhood in Seattle, sends him to white schools (plus, in several humorous passages gives him some embarrassing and especially traumatic advice on women and sex) and gets herself a college education (come hell or high water).
