The Code: Unlocking The Ancient Power Of Your Birthday

Synopsis

> introduces readers to an enriching and timeless tradition practiced for centuries in the Western Europe. Going beyond simple numerology and mystic numbers, > offers a practical guide to discovering your personal tendencies, choosing a career, raising children, navigating relationships, and living a fulfilling, healthy life. Each number in your birthdate has its own unique meaning and secret attributes that influence your abilities, personality, and relationships. By integrating the power of your birthday numbers with corresponding colors, the number wheel vividly shows you how to find balance and harmony, unearth your hidden talents, and navigate daily life. For generations the number wheel has been used by the people of Tyrol to help raise children, choose a profession, learn about proper nutrition, treat illness, and make choices that promote physical and emotional well-being. > offers time-tested indigenous knowledge that has been effectively used for centuries.

Customer Reviews

I bought a kindle version first, but I found it was not good, because many important pictures in the book couldn't be seen clearly on PC kindle. As a result, I bought a paper version later. so i suggest not to buy kindle version for this book.

I have never been very interested in numerology, but got introduced to The Code: Unlocking the Ancient Power of Your Birthday by a friend who worked with the authors. He showed me the short version of my "signature" and I was intrigued by how spot on it is about me and also my husband.

It's just a different way of looking at your energies and inclinations, so you are more aware of areas where your natural tendencies can use some support, and it gives some interesting techniques to strengthen them, like adding certain colors. Definitely worth a read, especially for anyone who ever enjoys horoscopes, astrology, and so on.

This book just rocks. I was introduced to The CODE on a trip in January and could not put the book down. Upon coming home, I purchased my own copy and have started at page one again. LOADED WITH KEY INFORMATION both for myself and what I can do/use with my clients. I no longer feel like I have to do it by myself. With a missing South and West... I now seek out the assistance I require to fulfill my goals. Thank you Johanna and Thomas for getting this information to the American public. ~Dr Nadine

It's amazing that we as a society don't look more toward ancient traditions and systems to help us now, we have so much to learn and this book has so much to offer. It is right on the mark in showing us as individuals about all the different aspects of ourselves. The Code can be applied to every day life so easily providing quick, accurate results for so many situations. You'll improve relationships with your family, friends, spouse, colleagues, boss, everyone because you now have the information about how to best relate to these individuals in the most effective way. It's a fascinating subject. Very well written, easy to understand and put into practice. Every home, business, school, THE GOVERNMENT, etc. should have this book on hand. Imagine a world where relations with everyone would be so much calmer, peaceful and significant. This is the book to take us there.

The Code: Unlocking the Ancient Power of Your Birthday By Johanna Paungger & Thomas Poppe
At a time when we are all looking for clues it only makes sense to look into ancient traditions that have stood the test of time. But in this case, we find a synthesis of at least two systems that synergistically lend themselves to color that take the reader to new depths of understanding everything from business partnerships and relationships, health to a finer understanding of self. This book is not for the passive reader, it's a hands on system that explains in detail how the reader can navigate their way through life.

The Social and Neurological Consequences of Belief Systems

The Code is a true gem in new information for the New Age. I have practiced numerology for more than 40 years and have studied almost every book written on the subject. The Code presents a

wonderfully simple, very accurate method of using just the birthdate to find your "gifts" in this lifetime and shows how to compensate for any lack in your personal code. In working up codes for people I know, I joyfully discovered that some of my grand nephews, born in the years 08, 09 and 2010 are absolutely exceptional souls. They are extremely well balanced and fit the image of souls who are incarnating in the world at this time to change the world and bring about the ascension of mankind. I would very much look forward to an expansion of this work by the authors. The Code is a must for anyone who is aware of the changes that are happening in the world and who look for signs of these in their daily lives. You don't need to know anything about numerology. At the end of the book there are some excellent ideas on maintaining good health by using the Code, and even a recipe on creating a health treating soup by using the colors and numbers in regard to the ingredients for the broth. In looking at my own "Code" of the numbers, cardinal directions and the colors associated, I have found so much information that I was unaware of, especially in relation to my spouse. I think this book is important for another point - that everything is tied together and that everyone has value in their lives, and if they only knew how to make the most of their lives by being in sync with their own vibrations through the Code, this would become a wonderful world with much less strife and much more joy.

This book was recommended to me by my Mastering Alchemy teacher. It is a life changer. It not only spells out where you have lacks, it tells you what colors to wear, surround yourself with, or carry to balance out the lack. The same with lacking numbers, just carrying the needed numbers on a piece of paper acts to balance that aspect. Help yourselves, help your loved ones, buy this book.
