The book was found

Lab Manual For Brown's Understanding Food: Principles And Preparation, 5th

Synopsis

The Lab Manual includes recipes and experiments appropriate for a food principles and food preparation course, organized to match the sequence of topics in the text. Each lab begins with an introduction and pre-lab questions, followed by an overview of the objectives, procedures, recipes, and post-lab questions.

Customer Reviews

Some of the charts are filled in with pen. I was not able to hand in a few reports using this book because of this.

Exactly what I needed for class. I recommend buying "new" since it is a lab book & you need all your pages.

Good condition

Rented this book and there's writing all over it. It looks horrible and there's pages missing

Good lab manual, although there were a few errors in the text.
