Customer Reviews

Decent enough story..the characters were good, it was interesting enough for a quick read. My only complaint was it just stops at the end, you don't really get what happens after they run..what happens with the bad guy? Do they get cleared or are they on the run?...

Javintore has one check of a day when he first encounters Monica, and something tells him she could tell him something useful, but is an Overlord torturing her really the best way to get that

information. The world building, and the concept of warriors being considered defective because of a personality trait, are just two aspects of the quick reads in this Universe that keeps me coming back for more.

â€”This is the 3rd kind of book Iâ€™ve read like this from the author and they just seem to keep getting better. This time we really got to know our heroine and feel what she was going through. The alien hunk was really her prince and I loved how they connected through their two situations. The story managed to give you everything you need in a very compressed package. Great nighttime read, and yes, VERY sexy.

I liked the plot. This alien was sweet and gets a sweet girl. Some sentences seemed like a word was missing. The alien says that he was only able to get a woman by having a slave yet the word bride was mentioned later. I didn't understand how that changed. The story ends at 88% with promos to fill the rest. Mature sexual content.

This was a sweet book. It was just the right length for me to read the entire story before going to sleep. The characters were interesting and likeable. The story kept me entertained from beginning to end. I will be looking for more reads by this author.

This is the first book in the series I have read and I thoroughly enjoyed it. The author does an excellent job of drawing you into the story and keeping your attention. It was a delightful short story romance that brought a smile to my face as it ended.

I anxiously await new books from this author. You never know what environment the story will be set in or the nature of the characters but you know you'll be taken on a wonderful journey. Loved this story.

Oh how I love this author's work! This was a great short read. I wish with these books that they were longer with more of a what happened after and with this short read she gave just enough to sate my appetite.
