Why We Left Islam

Synopsis

One day, an American on the verge of converting to Islam said to one of the editors, Please, I fear I am about to make the biggest mistake of my life. Please give me one solid reason not to convert. This is the book Joel Richardson wishes he had at that moment. Powerful, often shocking but always heartfelt, these essays from over a dozen individuals who have left Islam -- often in fear for their lives -- are remarkable for their honesty. The stories of how these men and women freed themselves from this repressive and brutal religion are not just inspirational, but present a searing challenge to those Westerners determined to perpetuate the Islam is a religion of peace myth at all costs.

Why We Left Islam: Former Muslims Speak Out was not what I had expected it to be. The book itself is a collection of first-person accounts from individuals who, in some capacity or another, were previously involved in the Muslim religious community. I expected a comprehensive, globalised, overview of the atrocities perpetuated by Islam the world over; essentially, a macro-view of Islam's role in world politics, coupled with discussion of individual experiences in the religion and ideology. There are about twenty individual accounts. Some are written better than others; the

introductory five are really the most well-written in the entire book. The editing can be a little dodgy, but the overall writing quality is good. It is necessary to contextualize my review, because my personal politics dictate to me how I feel about this book. As a self-identifying atheist, I am comfortable with directly addressing the uglier aspects of religious and theological thought. This is very much a book where one finds what one is looking for: individuals who are stringently anti-Islamicization are going to find more fodder for their beliefs, while those who believe Muslims are marginalized will find support for that, too. Upon its release, *Why We Left Islam* was regarded as extremely controversial, because all of the testimonies brought forth are less than favorable. Most recount sheer barbarism in the name of the religion: excessive misogyny, physical abuse, and sheer terror are all consistently perpetuated upon the writers. Each experience in the book is written by separate individuals, yet they maintain the same themes: subjugation of women, tunnel-visioned ignorance, and blind hatred towards the West. Thoughtfully approaching this book is absolutely imperative.
