Customer Reviews

Fantastic is a word I would use to describe this book, the very last supplement in the Werewolf Apocalypse line. The scenarios are all entertaining and capture that doomed yet heroic spirit that the game itself had. Have no doubts that each scenario guarantees that heroes will fall and victory can only be won at the cost of the entire Garou race. You can tell that the writers really loved their game line and setting and they wanted to make sure the werewolves got a proper send off and the fans of the game are showered with plot points, helpful suggestions and open ended scenarios that allow you to tinker with and add on your own points. I heartily recommend this book even as just a good read if you enjoyed the werewolf metaplot or just wanted to see what Apocalypse was going to be like if you stopped running one of these games long ago. You won't be disappointed. By far this was the best of the Final Judgment books that ended the White Wolf game lines.

The WtA had the most heart, despite its action packed premise... This book was everything I

wanted and more. Amazing battles, heroic sacrifice, and betrayal. It was amazing....The WtA creator's put their souls into this and it shows, it's open ended, yet as structured as you want the Apocalypse to be.. It wasn't soulless like the Gehenna book, but made you laugh and cry with your characters in the end times...Buy this is you ever want to end the world with a bang in your WtA books...

This book, the culmination of years of gaming in the world of darkness as the mighty Garou, is a fitting end to the game line. The scenarios contained within are definitely everything I expected the Apocalypse to be like, with huge battles, sacrifices, and plot twists. I'd recommend this book to any fan of white wolf, not just werewolf.

Its a good enough book for the gehenna series, but is still lacking in what I would call depth, that is missing throughout Apocalypse. But its a fun book, and a few of the stories in there is quite epic and fun to run through.

it's one of the most useful and inspiring book of the whole setting. a great amount of ideas for epic horror.
