# Crystalline Stellar Skulls: Who Are They Really?

## Synopsis

This book is designed to trigger memories deep in the cells and DNA. It is meant to bring these memories into your awareness for deep healing and transformation. Moreover, it will help you awaken the master skills and abilities you once knew ~ bringing you more into wholeness. With the help of the Crystalline Stellar Skulls, this can be accomplished in a smooth and loving manner. They have a deep knowing of what needs to be addressed.

## Customer Reviews

I first came across the Stellar Skulls through the Sedona Journal of Emergence and felt an instant connection. As you can imagine my excitement when I found out there would be a whole book on the subject. It was so intriguing to learn more about the origins of the skulls. I also loved the way the author incorporated her story of finding the skulls and the adventures that she was led to from that point. If you are on your own spiritual quest I highly recommend accessing the wonderful energy of the Stellar Skulls and the skills of Team Earth.

This book is a great introduction to who the Stellar Skulls are and the healing work they have done and continue to do on the planet. I have through the book and associated website come to recognize and experience the energized and loving energies of the Stellar Skulls who are always available to help, teach and aid any seeker on their journey back to the full realization of their own Divine Essence. In the quickly changing world where both the light and dark are intensifying it is time for the message of the skulls and I encourage anyone who is drawn to this information to read this book and connect with some very powerful energies. Good stuff!

"Fasten your seat belts," Terra Rae says several times in her book. That's an understatement! I first met Terra Rae and the Skulls at a psychic fair and have done some very powerful work with the team in the past year. It is NOT a cliché when people say this work changes and frees lives in a powerful and positive way. I had one major problem of which I am now free thanks to these benevolent healers. It's been several months since that release and the effect is the same, so I know the release is real- and I seriously doubt I could have done it on my own, because I tried for years. So READ THIS BOOK! Plan to dogear the activation pages and read the whole book several times. It's too much to absorb in one reading, and you'll want to understand the big picture.

This is not a book I would personally recommend to anyone seeking to find out more about crystal skulls. It is comprised of experiences the author has had in more of a woo-woo kind of way. I have no doubt about their truth, but prefer more of an educational approach written by someone with a Ph.D. explaining their history and power.

A must read book for anyone interested in understanding the process of accession as well as planetary shift and its relation to our spiritual lives and journeys. The author presents the information in a way that any person with no previous spiritual training will understand and helps to educate, from the layman to the expert. There is something for anyone seeking spiritual awareness within these pages.
