The strongest evidence that 9-11 was an inside job comes from the highly sophisticated, military grade nano-thermites that were found in the rubble - in both exploded and unexploded form - immediately following the 9-11 attacks, as Christopher Bollyn astutely mentions in his book *Solving 9-11; The Deception that Changed the World*. This information was published in 2009 in a credible, peer-reviewed, scientific journal; the name of the study is: "Active Thermitic Material Discovered in Dust from the 9/11 World Trade Center Catastrophe" and can be accessed at: [...] - and has not been refuted by anyone in the scientific community, or anyone else for that matter, since. For more information about the inherent weakness of the official conspiracy theory/story, read: "Dr. David Griscom Wins 9/11 Physics Debate. Not a Single Top Physicist is Willing to Defend the Official Story!" at: [...] . Based on the density of nano-thermites found in the rubble, one of the lead scientists of the aforementioned study, Niels Harritt, has estimated that between 10 - 100 tons of nano-thermites were most likely used in the controlled demolitions of WTC 1, 2, and 7 (to account for the density of explosives found and documented in the rubble). In any event, too much nanothermite was found to have been brought in on airplanes. Bollyn looks at Building security and

discovers Marvin Bush was one of the principals of stratesec/securacom, information which was never widely reported in the cabal-controlled mainstream media, but is widely circulated on YouTube and is in fact public information! He also looks at Israeli security companies connected to Israeli intelligence and makes some very interesting connections.

I hate electronic books for many reasons, including being an old guy that still thinks in hand - eye - brain terms, so let me start by saying this is the first e-book that for me has been a pleasure to read. Plenty of white space, clearly separated chapter, a great inter-spersion of photographs, and finally -- my most important touch point -- really superb sources at the end of each chapter, with many of them actively linked. As the #1 reviewer for non-fiction, reading in 98 categories, I read a lot -- over 30 books (with a leavening of DVDs) on 9/11, but to put that in context, that is just 0.016 of my reading in the last decade. Do not for a moment think of me as a conspiracy theorist or anti-Semite. I am an intelligence professional, with integrity. This particular book, unlike all the others I have read in relation to 9/11, does four things no other book has done: 01) Connects the dots of all the dual Israeli-US citizens in the US Government and US commercial circles (mostly in NYC) that were active participants in the 9/11 false flag operation. The role of the owners of the 81st floor and the massive bank of "batteries" that were never used but are precisely where the airlines hit, impressed me. 02) Integrates, for the first time, the history of Israeli false flag operations, the 1980 recognition by Israel that an attack on NYC and specifically against the tallest building in NYC whatever that might be, and the total complex context of 9/11 as both a catalyst for forcing the USA into a "war on terror" and a cover-up for the most massive financial crimes in history, including a special role for AIG and its specifically-identified Zionist leadership.
