Grimoire For The Green Witch: A Complete Book Of Shadows

Synopsis

The author of the popular Green Witchcraft series presents her personal Book of Shadows, designed for you to use just as she uses it-as a working guide to ritual, spells, and divination. This ready-made, authentic grimoire is based on family tradition and actual magical experience, and is easily adaptable to any tradition of Witchcraft. Grimoire for the Green Witch offers a treasury of magical information- rituals for Esbats and Sabbats, correspondences, circle-casting techniques, sigils, symbols, recitations, spells, teas, oils, baths, and divinations. Every aspect of Craft practice is addressed, from the purely magical to the personally spiritual. It is a distillation of Green practice, with room for growth and new inspiration. 2004 COVR AWARD 1ST RUNNER-UP

I was drawn to this book simply for its spells having a Book of Shadows already on my shelf. But when I started to read I slowly began to realize how much more this book really is. Don't let the size fool you. It may seem small but this is one of the most extensive books I have ever read on the subject. Not only does it explain the basics that pretty much every Book of Shadows does (or should) go into, but it also explains intricate details for further knowledge that most have to gain from personal experience. It starts with deity basics, explaining what green witchcraft is and its ethics (Ann Moura being a green witch along with much of her family for many generations) along with who (in a very general way) the Goddess and God are. She mostly leaves this open for slight interpretation since many different types of point of view of the subject exist along with names as

she slightly goes into by explaining what she has been brought up to believe in her family. She also expresses the main (not necessarily most popular) types of green witchcraft. Then she goes into the Wheel of the Year, quite extensively. A large amount is devoted to what the book claims to be, the BOS, explaining rituals, chants, and blessings done during the Sabbats (one of the longest and most extensive I've seen) and during spells, tools and how to make them, important rituals such as Drawing Down the Moon and consecrations, a large chapter for just meditation, a chapter of just things needed to make a spell and ritual work and what goes into making them (there are nineteen sections of this chapter mind you).
