Cold Moon (The Huntress/FBI Thrillers Book 3)

Synopsis

The hunt for mass murderer Cara Lindstrom is over. FBI Special Agent Matthew Roarke has been working for this moment: the capture of a killer who savagely hunts the worst of humanity. But Roarke remains traumatized by his own near-death at the hands of the serial killer who slaughtered Cara's family and haunted by the enigmatic woman who saved his life. Then the sixteen-year-old prostitute who witnessed Cara's most recent murder goes missing, and suddenly pimps are turning up dead on the streets of San Francisco, killed with an MO eerily similar to Cara's handiwork. Is a new killer on the loose with a mission even more deadly than hers? In the pulse-pounding third Huntress/FBI Thrillers book, Roarke will have to go on the hunt and every woman he meets, even those closest to him, may prove deadly.

Customer Reviews

Series are the Kings of the publishing world, right now, but I am not really a royalist, if you know what I mean. Call me Cromwell. For me I think that I can count on two hands the number of series that have consistently rocked me from beginning to end. Add another one. Although this series is not over, Cold Moon, by Alexandra Sokoloff, continues what the first two books of The Huntress

Series started, and amazingly, goes even farther. This book is still the story of the Huntress, Cara, and FBI Agent Roarke, and his team. What makes me believe that this series will just get better and better is that the story expands, and Ms. Sokoloff brings great depth and complexity to a tale that was already very good. Singh and Epps have more time in this book, along with social worker Rachel, and Cara's cousin, Erin. With their expanding rolls the extra characters enrich the novel. Plot-wise The Reaper is dead, and Cara is in custody, but there is precious little evidence, and only one witness, the mercurial and unstable runaway Jade, who is also an exceptionally well-drawn character with an expanded role. Cara's crimes, though unproven have taken on a life of their own, and her story goes viral. She has become a folk hero of sorts, and several times she is linked with La Santisima Muerte, a female folk Saint venerated in Mexico and the Southwestern United States. A group of hackers helps boost the story and Cara begins to morph into an iconic archetypical character, an Avenging Angel. The story grows in depth, and we follow more characters even as Cara and Roarke continue their deadly pas de deux. Ms. Sokoloff hits all the right notes in the way she deals with the story slipping out into the wide world.

What do human trafficking, abusive sex trade, under aged girls, abuse inside female prisons and vigilante justice all have in common? Well the answer to that would be Cara Lindstrom. As *Cold Moon* (The Huntress/FBI Thrillers #3) by Alexandra Sokoloff, opens, Cara is in custody for the murder of Danny Ramirez, a pimp in San Francisco, and the authorities see it as a slam dunk conviction because there is a witness to the crime. While in custody, one of Cara's deeds becomes an emotional blog piece. Local police attribute her rescue to the intervention of Cara Lindstrom. Cara Lindstrom, who now sits in San Francisco County Jail #8 awaiting trial for murder, on no bail, despite the flimsiest of evidence against her. Sokoloff, Alexandra (2015-05-05). *Cold Moon* (The Huntress/FBI Thrillers Book 3) (Kindle Locations 744-746). Thomas & Mercer. Kindle Edition. Spreading like wild fire, Cara becomes elevated to folk hero status, likened to Nuestra Señora de la Santa Muerte or, colloquially, Santa Muerte (Spanish for Saint Death). (view spoiler) A personification of death, she is associated with healing, protection, and safe delivery to the afterlife by her devotees. And so the story's excitement begins, a crime identical to that of Danny Ramirez happens and authorities grant Cara release pending trial. I'm not going to go into detail on the story line, as I think the peeling away of the info is what makes this series so enjoyable. The story is well written, many of the characters are already known to readers of books 1 & 2, and some of the characters are expanded, and have more page time in this book. I really felt a connection, and chemistry between Roarke and Cara in this book.
