Neon Spark (Dark Magic Enforcer Book 5)

Synopsis

A hundred years I've waited for this, my chance for revenge. To confront and kill the person who murdered my parents and caused such unbearable heartache. Tokyo has other ideas. As neon burns my retinas, and bizarre, utterly foreign Hidden try to thwart me at every turn, I lose control. Obsessed, single-minded, and utterly deranged, I sink deeper and deeper into a desperate madness as I chase across the megalopolis seeking vengeance. They torture me, they blast me, they try to eat me, and they threaten my very soul, but they don't know what they're dealing with, and neither do I any longer. Strange powers stir inside my battered body, forces I have little control over, and it isn't long before this fury will explode and rain down bloody hell on all who stand in my way. I'm not called Black Spark for nothing, and my nemesis is going to pay for her crimes even if it costs me my life. I'll show her, I'll show them all. Look out Tokyo, the gaijin's in town.

Faz Spark has finally found out who the person responsible for the death of his parents is, and he won't stop until she pays. He heads to Tokyo, Japan, with Dancer, Kate, and his grandmother where

the killer holds sway over much of the Hidden and the gangs of Tokyo. When Faz arrives, finding the killer isn't quite as easy as he thought it would be, not that he thought it would be very easy at all. As always, Black Spark finds lots of enemies more than willing to kill him in new and unique ways, just to make him suffer and to enjoy his suffering. What's different is some of his enemies are also willing to commit suicide, too, to protect his parents' killer. And, to add insult to injury, he has a strange new power he isn't sure how to control. Before long, Black is knee-deep in a situation he isn't sure he will survive. Will his parents' killer get him, too? Or will he once again be the victor? This is the fifth book in this series, and I think this is the best one of the series by far! The series has come a long way since the first one, and it is fast becoming one of my favorite series. The writing is terrific, the protagonist's sense of humor is excellent, and the characters are so fun and entertaining. We didn't get to see much of Kate and Grandmother in this book, but that really doesn't stand out and isn't really a bad thing. What does stand out is how fleshed-out and interesting Dancer becomes in this book. We learn much more about him, and I see great things coming. One thing I do have to warn readers about is that this book is darker than the previous ones in spots, and since I don't want to say too much and spoil anything, just be warned there are a couple of parts that readers might find disturbing.

Full disclosure â "I received a free copy of this book from the author as part of his â œA-Teamâ • in exchange for an honest review. Still reeling from the betrayal of Mage Rikka, a man he once considered a mentor and a father figure, and clearing his name before an execution ended his life, Faz is off to Japan with one thing on his mind: Revenge One good thing Rikka did for him in the end was to tell him the name of his parentsâ ™ murderer. Armed with that information he immediately heads off to the land of the Rising Sun. Accompanied initially by Grandma, Kate and Dancer, Spark sets out on what may very well be his final mission - find and kill Kimiko Cocchi. After the initial culture shock and encountering Hidden of a more extreme and bizarre nature, Faz decides to do what he does best... go it alone. Sending everyone back to the relative safety of Cardiff, he realizes that this may not have been the best of ideas. Up the proverbial creek without a paddle, Spark finds himself in ever increasingly dangerous situations as he tracks his prey. Losing this battle is not an option as it will be the death of him, but will success bring any different outcome? Not for the squeamish, Neon Spark is a violent trek though the city of Tokyo. Throughout the story we are taken through the bright lights and overcrowded hustle and bustle of the city center to the seedy underbelly run by the Yakuza and all manner of places in between. The imagery is enough to stir your senses and either make you want to take a trip or hide in a closet somewhere depending on

your mindset.
