The Morisot Connection (Book 8) (Genevieve Lenard)

Synopsis

Murdered criminals. Flawless forgeries. Encrypted operas. The murder of an opera house director forces world-renowned nonverbal communications expert Doctor Genevieve Lenard and her team into an impossible position: protecting notorious criminals from what appears to be a serial killer. Genevieve plunges into the world of opera, uncovering secrets that a group of organized crime leaders would do anything to keep hidden. She cannot allow her previous case, unreliable witnesses or conflict with her team to distract her. Not if she wants to prevent many innocent lives being lost in a shocking grand finale.

Customer Reviews

I got the first two of this series on the free books page. I found the development of the characters really well done and the mystery/thriller aspects of the stories credible and attention holding. I rarely buy follow up books in a series when I've read the free one as most of them are not worth the investment of time, eyes and money. But I became interested in the main character's development as she is autistic, but functioning, and her relationships with other characters and the thought

processes described were written in a way that draws you into the story. Luckily two of the books were also available from Audible when you bought the book. I like this system of buying the book and getting the audible version for a reduced price of 1.99 or 2.99 or a bit more. It's worth it to me as I try to save my eyes. Even with changing the font with a Kindle you can still get eye strain when you read as much as I do. This series is worth my time, effort, eyes and money! I enjoyed them all. It is fun to learn about art masterpieces and Mozart music. I always learned something new or refreshed my memory of art and music forgotten over the last 60 years! Will there be another??

In the largest collection of criminals yet, Dr. Genevieve Lenard and her team set out to find a serial killer before he takes his next victim. With a body count of four and his time frame getting shorter and shorter, the team has little time to figure out who's behind this and why. Estelle Ryan is back in the head of Doc Face Reader for the eighth in the Genevieve Lenard mysteries. This one centers around the place where the world of opera intersects art and technology. And the lives they're trying to save are criminal masterminds. It's an unusual case even for this group. On to #9!

Back to Genevieve's perspective ~ and more Mozart! If you're just stumbling upon the Connections books, I implore you to begin at the beginning ~ there are so many layers, nuances, inside-jokes you'd miss if you haven't been with them for the entire ride. I'm just thrilled Ms Ryan is such an amazingly *fast* researcher and writer; we don't have to wait through agonizing years for the next story.....but where, exactly, is this marvellous material coming from?? (And I *STILL* want to have dinner with this group!)

We're still looking for Gallo when the team starts to find other bodies of criminals who hadn't been on wanted list in at least 6 years. Then the man who ran the opera house is killed. Are they all connected, are they connected to each other, are they done by the same people and is Gallo connected? Read and enjoy.

Another great read by Estelle Ryan. I love how in each book, Genevieve is trying to work on her emotional connections to her friends while loving to solve the puzzles, in this case, several murders of criminals. I love each character in Genevieve's world and I can't wait for more!!

I love all the Genevieve books. They are great mystery suspense stories with a fascinating cast of characters who love Genevieve and support her but clearly look up to her for leadership. Love the

story angles on Genevieve's autism which shows how it both enhances and limits her life and career. The information on classic artists and their work was also a plus for me. I love mysteries that teach me about a subject. My library only had the first 3 or 4 so I was forced to buy them all and enjoyed a reading marathon over a long weekend

I am such a huge Genevieve Lenard fan - she has a great formula here and I love how the characters interact and contribute to the whole team dynamic. I especially love Jenny and Colin's relationship - what a perfect pair they are and so good for each other. Keep writing Estelle Ryan!

Wow. A friend told me to check out this Author, so I downloaded the first book. Halfway through, I downloaded the next in the series, then on and on until the 8th book. 'The Morisot Connection ' was terrific. Great storyline and wonderful characters. I can't wait for the next release. Highly recommend!
