Atheism Bites: 100 New Atheistic Aphorisms

Synopsis

Written by a philosopher of mind and seasoned researcher of religious practice, *Atheism Bites: 100 New Atheistic Aphorisms* is a compilation of witty, bite-sized chunks of atheistic philosophy that will provide you with a new flavor of food for thought and a quick reply to any argument against those who challenge your skepticism. In the subtle aphoristic aftertaste you will find a different way of criticizing religion: from within, oftentimes turning the possibility of God's existence against itself with unbridled irony. Intelligent, complex, sardonic, fun and deeply ironical, *Atheism Bites: 100 New Atheistic Aphorisms* is a treasure trove of new thoughts and perspectives on the irrationality of religious belief: "To be an atheist is to have faith we are capable of better gods." "Even typographically, all you need to turn immorality into immortality is a cross." "Religious conversion is a process of sublimation by which a belief transitions from the doubtful to the dogmatic without going through the plausible." Read *Atheism Bites: 100 New Atheistic Aphorisms* today

Customer Reviews

it amazes me that anyone believes the nonsense in the bible - it is folklore from ignorance of science and natural events. unbelievable that anyone but a child believing in santa clause could

take it for the truth. so many struggle to keep their belief in a god, not realizing that their doubts are the truth.

Excellent addition to the war chest. One can never have too much pith in the event of a believer encounter.

Great book. Amazing food for thought. Will recommend to everyone, religious or not. It really feels like it tickles your brain. Read it now

I found most of the 100 aphorisms to be quite funny. It's a small book of pithy comments that can easily be read in one sitting.

I will be reading more by this author. Snicker out loud funny at times if your irony and sarcasm wits are turned on.

Cute and witty. It made me laugh.

Excellent reference source

Interesting, sort of
