Magickal Servitors: Create Your Own Spirits To Attract Pleasure, Power And Prosperity

Synopsis

Magick is used to attract money, love and luck, but it can also be used to inspire artists, to encourage loyalty and passion, to increase popularity and fame, or to repel attacks. Magick can make people see you in a new light, protect you, end bad luck, open new opportunities, and direct change in whatever way you want. If you have a need, it can be served through magick. With servitor magick you create a spirit yourself, using your mind, heart and soul, to serve your deepest needs. This is the most personal magick imaginable, and it can reward you with extreme pleasure, the power to create change, and the ability to attract prosperity in all areas of your life. Everything that could be said about servitors has been said. Until now. Servitor magick has been around for a long time, but it became popular in the last half-century or so. There are countless Chaos Magick books and free websites that will tell you how to create a servitor. There are a small number of variations on a theme, but the essence of these sources is the same. *Magickal Servitors* contains two major secrets discovered by The Gallery of Magick, which are embedded within the fabric of this process. This magick is designed to be accessible to beginners as well as experienced occultists. If you are new to magick, all you need is an open mind and the willingness to work with the techniques as instructed. You will be pleasantly surprised by the way the world yields to the touch of magick. You will discover: Spirits that are easy to contact and effortless to command. Servitors that grow and change with your needs. Magick for long-term, repeating results. Servitors for Self-Development, that help you enhance or subdue a personality trait. Perception Servitors, to see people and situations clearly. Servitors of influence, to stir thoughts and feelings in others. Manifestation Servitors for material rewards and real-world change. The secret process of Vision, Creation and Life that gives birth to a loyal, powerful spirit. Acclaimed author Damon Brand says, 'With the secrets of practical magick, you create your life according to your true will. There is no higher magick than the magick that brings results.' This book presents a system for creating servitors that will enable you to craft a conscious spirit that will act on your behalf, manipulating matter, time and the patterns of reality to bring the results you desire.

My Work has forever changed because of the Works provided by the Gallery of Magick. Just read my other reviews for their works to see. Because of this, this volume is, I feel, one not to be ingested until a Worker has built up faith and trust in their own processes. I tell you, had I not found success with other portions of my Work, the idea of servitors as presented by the Author would have seemed too simple, and I would not have been able to produce results. For me, a person steeped in the Western scientific "physical world only" tradition, I would not have been able to believe I could actually, truly Create Something that really Existed and that worked. I had to try the Words of Power. I had to try the Shem Angel magick. I had to feel the changes from the 72 Sigils. I had to seduce. The day this book came out, I read its description and bought it with butterflies in my soul. I knew, if I pulled off what this book talked about, I would never, ever be the same. I also knew, if I failed, then I would experience a terrible disillusionment and a loss of faith in myself and how I perceive Reality. I read it. I denied its simplicity. I read it again, and my mind was filled with possibilities, ideas and events and purposes maybe even the occult community hasn't even thought up before. But how could they be achieved? How could it be so simple? I tabled the book for 2 weeks. My mind, my heart, my soul kept bringing this book back to my consciousness. "Screw it. I might as well try," said I. The results were precisely what I wanted, but the process of their realization blew my mind. The Author gives a formula for creating any servitor: designate its purpose, appearance, powers, timing, location, calling, and fatal flaw.
