The Book Of Magick Power

Synopsis

This is the most comprehensive book on the subject of modern practical magic to date. Practical magic makes real and observable changes in yourself and your environment through the invisible forces that manifest and transform your reality. Astral projection, telekinesis, clairvoyance, telepathy, weather magic, angelic and demonic conjuration, magnetism and fascination, manifesting love and prosperity, prophesying the future, and communicating with the dead are just a few of the more than 100 procedures clearly detailed in this manual. For centuries, these techniques were guarded by their few masters. The veil has finally been lifted. This definitive work simply outlines the procedures necessary to open up the unseen world. Practical techniques have been broken down step by step, providing an exact model for success. Unleash your limitless cosmic abilities today!

#322 in Books > Religion & Spirituality > Occult & Paranormal > Magic Studies #627 in Books > Audible Audiobooks > Religion & Spirituality > New Age & Occult

Customer Reviews

I was quite the cynic when I first got this book. Everyone in the "New Age" movement seem to bring out books on magick that will change your life in three easy steps. Yet, after reading and re-reading this book and, more importantly, using the exercises as suggested I came to the conclusion that Jason is the real deal. Although he offers simplified versions of ancient magickal formulae he in no way becomes simplistic. If you are tired of medieval grimoires steeped in outdated mythologies "The Book of Magick Power" might just be the breath of fresh air your postmodern mind has been craving for. The book is dense with practical methods for discovering the magick that exists within you. Highly recommended!

This is not a book of theory, this is a practical book of exercises for those that would rather do magick that merely theorize about it. The author acknowledges that all magick takes place in an altered state of consciousness (in the alpha and theta brainwave range) and gives exercises to enter and anchor these meditative states of consciousness. The key to getting into and maintaining these states of consciousness is practice, practice, practice. In my experience, any magician who fails to learn the basics of self-hypnosis and meditation prior to working with more advanced techniques is setting themselves up for failure and disappointment. This book will give the reader a practical set of tools that actually work and just as Jose Silva did years ago to the self-improvement/mind-power genre with his famous Silva Method, Jason Newcomb brings a practical and modernizing approach to magick that allows even traditionalists to benefit from a modern understanding of the way the mind works. Couple this book with a good book on self hypnosis (such the original Silva Method or the Secrets of Self Hypnosis by Adam Eason) and meditation and the reader will have a firm foundation for their inner work that will benefit them vastly more than a library of pop new-age fluff such as the Abraham Material and the countless Secret spin-offs that are basically a mile wide and an inch deep.

Looking for a book on philosophy behind magic? Don't look here. That's not to say there's no philosophy at all in "The Book of Magic Power," but it's chock full of real exercises that you can do for a variety of purposes (unlike many so-called practical magic books). Jason's writing style is fluid and easy to read as usual (I have a total of four books by him), and I feel this book is his best work to date. I picked up this book through a friend at a mystery conference and even got Jason's signature about 2 weeks ago. Since that time I've gone through a number of the exercises and am impressed at the depth that is managed in such a short number of pages. Pick this up if you want to DO the Work, not just read about it.

Another excellent book by Mr. Newcomb that truly has the potential to help one change his or her life in profound ways! This book does a very good job of taking arcane concepts that various other authors have often written about in cryptic and confusing ways and distilling them down to their primary essences so that they become incredibly easy to understand and put into practical use. For anyone who is interested in taking the first step from armchair magician toward practicing adept, this book, along with Mr. Newcomb's *The New Hermetics: 21st Century Magick for Illumination and Power* are must haves!

As someone who has dabbled in different areas of the "occult" from Magick to Yoga, this book would have saved me a lot of effort in the beginning. Newcomb's writing is intelligent, focused, and helpful in guiding along the new adept. Even in the earliest exercises of the book, one can see real visible results manifested in the material world. Though it would take someone a great deal of time to fully master every aspect covered, it's up to the reader to use common sense and not rush. I highly recommend this manual for anyone who wants to stop playing around and start making things work.

This is a highly motivating book on magical exercises, which has helped me reach a new level of both skill and confidence. Though I have been studying magic for years I find it very useful. But have I had access to a book like this when I first started I would have been truly blessed (and powerful.) It contains no said preference of magical paths, which makes it easier to swallow. As an example Newcomb uses English rather than Hebrew in the Lesser Banishing Ritual. It is a workbook, so count on doing the work. I see some complain about the cost, but really, you'll use this book for years to come. Want to practice rather than preach? Then this is the book for you.

All I can say is, this book gets right to the point. Very little talk and a lot more walk. I loved it and all I can say is.....it's about time someone wrote a book like this.

I have been studying Kabbalah for years, I was then introduced to New Hermetics by a former Kabbalah Teacher. I started reading the New Hermetics book and then was introduced to this book "The Book of Magick Power". This is incredible, the research that has gone into this book is wonderful. Things in my life have been changing. Plus this book is written in such a way that when you reread it you even get more out of it. I have found myself dwelling for long periods of time over sections of its contents. Great meditations are in it and they change your heart.
