While I think the cards are very beautiful, and the descriptions are insightful, I think I was looking for a little more information related to Sacred Geometry. A little more "ummmph", I guess as to the meaning behind each illustration and geometric form. Perhaps better used as a spark for meditation,

but in terms of "meaning" behind sacred geometrics, I was disappointed.

This new deck by Ms. Hart is magical. The images are simply gorgeous and the accompanying descriptions for each card insightful. Each time I've chosen a card, for myself or for others, the result has been amazingly synchronistic.

I ordered these cards for a friend. I have Francine Hart's Sacred Geometry Oracle Deck and I love them. So, I wanted to get them for my friend. They were out, so I saw these. They are absolutely beautiful. Actually I don't worry so much about what the cards look like it's what I feel when I touch them, and these cards are amazing. My friend loves them too. She is using them each morning before she starts her day, not to read her future, that is not what they are for - it's to show her how her life is structured, and to lead her in the direction that will most benefit her soul. Metatron comes in with these cards, as he is the keeper of the formulae and he leads us to the answers that we require to complete our journey. I highly recommend these cards, they are truth and love.

Francene Hart's new deck and book just shines! Her connection to nature, the elements, symbology and even Hawaii is evident in the cards. I threw a spread for the New Year and instantly could relate to the images and their relevance. I'd recommend Francene's cards for folks who are very visual and open to nature and beauty. Her spread suggestions are interesting and insightful, also. Great job, Francene!

I purchased this for my 5 year old daughter(at the time) read and play with these cards, Its profound how children have the ability to understanding these sacred geometry shapes. And as they should because theses shapes create the world around us. . .Brain food for the Soul, Mind, Spiritual body. Suttle energy body's .JUST DO IT.; >

I was happy to see that The Sacred Geometry Cards for a Visionary Path was "Real". There was nothing "Tricky" about it. The Designs, pictures, and colors were respectful & In Tune with what it represented. The information The Cards held are singing along with Nature's Gifts (everything around us that we see, use, eat, experience) & Time/History therefore what is given to you is insightful, with sound information. The information allows one to be aware of The Mystical depth to delve into. Thank You

These cards are magic. Everytime I pick one it portays exactly where I'm at and what I need to look at. A great tool for self awareness. I highly recommend this book and the cards.

This set is already one of my favorite card decks. The artwork is beautiful and so deeply layered that I can be mesmerized for a time looking at each one. Thoughtful and poignant descriptions. Love it! Stunning.....
