Cosmic Cradle, Revised Edition: Spiritual Dimensions Of Life Before Birth

Synopsis

Where was your soul before you were born? If your soul is immortal, did it have a "life" prior to birth? Did you choose your life and parents? Is reincarnation real? Elizabeth and Neil Carman, the authors of Cosmic Cradle, address these questions through interviews with adults and children who report pre-birth experiences (PBEs) not based on regression, hypnosis, or drugs. Instead, interviewees recall their pre-birth existence completely sober and awake. In contrast to near-death experiences (NDEs), which have been well documented to show us what the soul experiences after death, PBEs throw light upon our lives before birth. People with NDEs sense that they "return home" when their spirits cross to the other side. What is the nature of this place we "return" to? PBEs suggest that we come from the same place we return to: we come from the Light and return to the Light. The same eternal "you" progresses through life before life, human life, and life after death. This new edition of Cosmic Cradle explores your soul's journey into your mother's womb--where your soul comes from, the origin and purpose of your life, and the process by which you entered an earthly body. In pre-birth communications, parents meet a soul seeking to cross over from the heavenly realm to human birth. Persons with pre-birth memories recall existence in a luminous world before birth, in which they preview the upcoming life with a Divine Planner, and recall how they journeyed to their mothers' wombs.

Contents Foreword by Bernie Siegel, MD Introduction: Amnesia of Our Spiritual Origins Part One: Pre-Birth Memory 1. Children as Messengers 2. Memories of the Cosmic Cradle 3. I Was in Your Tummy Twice 4. Scanning Soul Plans: Contemporary Pre-Birth Memories 5. Welcome to Planet Earth 6. Shirley Temple and the Blue Bird 7. Our Soul as a Tiny Spaceship 8. I Saw All My Costumes 9. Souls Waiting in the Wings for Birth 10. Soul as a Sphere of Light 11. Cosmic Conception 12. Miscarriages and Stillbirths in the Light of Pre-Birth Plans 13. Conversations with Unborn Children 14. Part Three: Pre-Birth Wisdom down through History 14. Spirit-Children Down Under 15. Lodge of the Great Manitou 16. The Cosmic Designer 17. Travelers from the Light 18. Journey from Forgetting to Remembering 19. From the Trade Paperback edition.

Reincarnation

Customer Reviews

I am the host of a spirituality website titled Beyond Religion which features mystical stories from around the world in ten different categories, including pre-birth communication. I met the Carmans when they contacted me, asking to be put in touch with some of the people who had submitted stories dealing with experiences in their field of pre-birth studies. Later, they allowed me to preview the manuscript of their new book. As familiar as I am with this type of story, I was amazed at the breadth and depth of the information which this book contains. It elevated my understanding of the subject to an entirely new level, and revolutionized my ideas, not only about the consciousness level of the in-utero baby but the extent to which mother and child can communicate and interact. The authors have interviewed over 150 people from a number of countries, "a rare group of individuals who possess pre-birth memories." While most of us have a form of amnesia which causes us to believe that we arrived here from nowhere, there are individuals who clearly recall existing as souls in the spirit world and making the decision to be born into the physical. In addition, these people remember the preparations which were required - choosing parents, sex, siblings, nationality, etc. - as well as being fully aware of life in the womb during gestation. The child's spirit is not only able to think deeply while its future body is developing, but is strongly influenced by what is happening in its world outside the womb, to the extent that conflict in the family may cause it to decide to change its mind about incarnating.

Can I give it MORE than 5 stars? I LOVE this book. I literally find my jaw dropping with pretty much

every story. The validations these people have gotten from their parents are astounding. Things that they 'know' which are confirmed by parents and others could not have been available to them in any other way besides having seen and experienced those things firsthand. I'm only about 1/3 of the way into the book and I'm trying to savor every page. I don't want it to end and I'm HOPING for a sequel. I'm a bit of a skeptic when it comes to the supernatural or scientifically unproven. But for me, I have always found such hope in people who are born with very strong past life memories. Kids who are so tied to their previous life that they have a difficult time adjusting to their current life. Their memories are so strong, so detailed and clear that often, they end up meeting still living friends and relatives from their previous lifetime and those friends or relatives become convinced that the child was indeed their deceased loved one. Imagine the kind of evidence you would need to embrace some little kid who was claiming to be your dead brother, mother, aunt or spouse. It would have to be overwhelming! And it is! THIS book comes at a similar topic from a different aspect. Instead of kids who remember their previous life, they remember their BETWEEN life...and the decision making process in choosing their parents for the life they are currently living. When they tell their parents about the things they remember, the parents are stunned and wonder how their child could know such details from before they were born or from their own actual birth. One child described the building she was born in as red brick.
