This was an absolutely amazing book. It was incredibly fascinating and really dove deep into the Dream world and explored all of its different realms. I have read a few other books on dreams and their interpretations, but this one is the most thorough and well done book that I have read to date on this topic. It is far from being just a simple dream exploration book. It really analyzes so many different things that it is more like a definitive dream encyclopedia. The author is obviously highly gifted and an extreme expert on the subject. You will definitely be mesmerized once you start reading. You simply won't be able to put the book down. If you have been looking for a good book that really gives some great definitive information on exploring your dreams, then look no further. This is the book that you need to own. It is the perfect rainy night or bedtime companion.

Spellbound with this book. A fantastic and informative book. I just finished it only in one day. Words from this book have motivated my mind to go to the every next pages. Really Author did a great job here. Though each book of this series are very favorite to me, but i like it most. After read this book i just thinking one thing and the thing is Dream is the good thing, Maybe the best thing. I'd say just give it a try and feel the test. Highly recommended.
