Synopsis

With his international bestseller *The Power of Now* nearing one million copies in print, the humble man known as Eckhart Tolle is fast becoming America's most popular spiritual teacher. Recognized for his unique ability to draw listeners into the awakened state he calls "presence," Tolle continues to top bestseller lists and fill auditoriums with men and women seeking a deeper sense of connection with life. Now, in a momentous publishing event, *Realizing the Power of Now* invites listeners to immerse themselves in a full-length audio retreat with Eckhart Tolle. Recorded at a rare five-day gathering led by Eckhart Tolle, here is a special opportunity for those familiar with his work or hearing it for the first time; to transcend the finite world of fluctuating thoughts, ambitions, and fears, and touch their true essence. This all-new program includes insights into: entering the Now through the portal called "allow", how to use the "inner body" and sense perceptions to find a peace that exists independent of conditions, expanding the space between thoughts for a deeper experience of the Now, and much more. Spoken simply, with his hallmark warmth, humor, and compassion, here is Eckhart Tolle's full presentation of a beautiful way to live that arises through *Realizing the Power of Now*. --This text refers to an out of print or unavailable edition of this title.

Customer Reviews

It's hard for me to rate one of Tolle's offerings over another for each of them takes me to that place that I've always longed for and looked for through a long history of meditation practice (which I dropped when I first encountered him three years ago). However, if I were put in the position of

saying which of his works after Power of Now is my favorite I would have to say Realizing the Power of Now is it. The Power of Now snapped me out of the seeker's mode and woke me up to the truth of my being and the ocean of peace of that's already and always within "me" - it's all I or anyone who is ready will ever need if they are ripe to accept the invitation to return home to one's being. Once that invitation has been accepted and the various portals to now are explored it will be seen that every life situation is another invitation to return home and to deepen presence. That's where Realizing the Power of Now comes shining through with tremendous clarity, not only for understanding but for what's most important, the actual experience of being/now/presence. This is a full-blown retreat and each successive tape takes you a little deeper until at one point near the end Tolle leads you masterfully to unplumbed depths of being. Those who are familiar with his speaking style will understand when I say that he has a way of pacing his words and phrases so that one who listens simply drops into the gaps between them and is left in pure being/pure awareness until another phrase pops you back into the phenomenal world, and then back into being. It reminds me of how a wick gets repeatedly dipped in paraffin thus creating a candle. If you want a candle with some substance to it you must keep dipping it - if you want a life that shines brightly keep dipping into the now.
