## Customer Reviews

• The Girl With The Gun • is the best of the Sydney Rye series (all of which are good and can be read as stand-alone novels). If you haven't read any books in this series yet, you're in for a pleasant experience if you enjoy well-told tales of strong women and fast-paced plots dealing with

complex obstacles that can make the triumph of good over evil a challenging and uncertain goal. This novel stands above your typical thriller in that the author carefully integrates important perspectives about the generally unjustifiable status of women in the world and some of the more disgusting ways that institutions like religion and government systematically exploit and repress 51% of the human population (girls and women). However, this is not some feminist tract disguised as a novel. The author's periodic dives into factual context are important to illuminate the motives of both the main character, Sydney, and also several important and interesting secondary characters. The fight against Daesh provides the backdrop to both the plot of the novel and also to the larger importance of serious issues our societies and institutions have failed to address. Ms. Kimelman has not created cardboard cut-out characters that are simply good or evil. She has done a good job of portraying the complexity of real individuals and showing the reader how difficult it can be for a real person to make important choices. Importantly, bad choices are not only made by certain male characters in this story, but also by some of the women. I suspect writing these nuances of character and thought, while keeping the story moving at thriller speed, was challenging, but Ms. Kimelman proves herself up to the task. A very important penultimate point: Sydney's dog, Blue, is a major character in this book.
