In his latest book, "Reiki & Sex", Nathaniel uncovers an otherwise not often discussed topic of Reiki & sex. He points out the sacred connection to Nature in both Reiki & sex: something that seems obvious, but many of us often miss. Both sex and reiki are spiritual experiences where we exchange energies with another person...so it only makes sense that Reiki can enrich our sexual side and energetic exchange with another when we make love. Love & reiki, the taboo of sex in our society and of course: how to use Reiki to enhance your sex life is all covered in the book. My absolute favorite part of the book was the self-healing exercises readers can do. Very helpful! I would recommend this book to anyone who is interested in using energy healing/Reiki to heal and enrich their sexuality and sex lives. In reading this, I learned a lot and more importantly, felt excited to explore the opportunities for my life (sexually and otherwise) that the book helped uncover.

It has a really good insights not just of having sex, but how you can make the intercourse something spiritual.

received this book on a timely manner and in great shape the book really relates Reiki and how to use Reiki and sex to enhance your pleasure

To be honest, the book did not maintained my interest.I have read many other books on REIKI that really captured my attention to a point that I could not put the book down.Not with this one. I was rather dissappointed.I guess, I wanted more.
