A brilliant story of what our futures together can really be! The author paints with great lucidness the portrait of our true emergence as a human culture, and an interstellar family. Very advanced, very heartfelt, with layers of mystical teachings hidden in the writing. Intriguing and thought-provoking.

The only complaint I have is that it was too short! I wanted more! The perfect kind of Love, and that's all there was... At first when I read the first sexual encounter, I wasn't sure I liked it being that I read all the books and I wasn't ready for that... Then it quickly turned into a Divine Love... And I fell hard in Love with this story... I felt I belonged and wanted to be part of this New Earth... PERFECT! Adam and Eva create Eden... Loved IT! Thank you Stephen Shaw for once again immersing my soul/heart into this beautiful story.... Feeling Alive! Much Love and Respect, Isabel

The Tribe is an enlightening story, guiding human kind to the coming of the Golden Age. Each and every book of Stephen Shaw gradually guides us to shift consciousness and opens the path to awakening. The Tribe here go way beyond spiritual insights and offers proper teachings and tools

through its way of educating, widening perspectives while caressing the deep senses of your whole being. It is a profound experience, earthy and divine, fine and smart, funny and arousing, true, sincere. Science, Spirituality, Love and Light all merge through the beautiful writing of the author. Let you be transformed by this Tantric journey, and rediscover the Eden that you are. Must read!

Yet another brilliantly written narrative by the master storyteller Stephen Shaw â “He has taught me that anything and everything is possible. If itâ™s a conscious thought and your heart beats fast to its words, then it is meant to be and you can make it so. A conscious and loving relationshipâ |.one that we all want and search forâ |a new worldâ |what is our soulâ™s purpose here and what part do we play in all this? Can we really make a difference? Does anyone else see a great movie in Shawâ™s book series? - Gail Michael

Shaw is in a class of his own. Original concepts; intimate knowledge of tantra; deep wisdom from the multi-dimensions; immersive radiance of the Light. These books take spirituality to a whole other level. The Tribe is a climax in the series, well worth reading! However, you should read the books in sequence as they build on each other.

The Tribe gently leads you to imagine a future utopia, living amongst like minded people, spiritually enlightened human beings who live how they love and love how they live. You find yourself contemplating the lives of future generations, how they will live, and where. Surely, there will be great changes on earth for many reasons. The Tribe will make you conceive of living in a commune in peace, harmony, and active creativity. I only wish it existed in the here and now!

A lusty, scrumptious story that weaves love, trust, light and compassion into a blanket of what we believe to be our own Eden. As always, Stephen Shaw manages to fulfill every facet of a story that holds our hearts and minds with deep, passionate love, intrigue and most of all, unity of a Tribe. Thank you Stephen!

An excellent continuation of the series of books that lead you gently from one lesson to another. Each book is very thought provoking and leads you forward on your spiritual path as you integrate the lessons. This newest book in the series shows the way humanity could and should be moving forward, as one tribe, into a better, kinder, purer and more loving future. For me each book has brought together and made sense, of all I have learnt over the decades, in an easily digestible form

helping me take giant steps forward and expanding my knowledge immeasurably. Well worth reading all the books, especially in order, to get the most from the teachings.
