The Teasing Method - Tease Her Until She Explodes: The Ultimate Guide To Going Down On A Woman

Synopsis

Dense and Information PackedThe goal of this book is simple, to teach you how to give extremely powerful orgasms with oral sex. After reading the book you should be able to give women multiple orgasms of intense power. The book is short, at 60 pages, it should take only about an hour to read. But it's densely packed with information, you'll learn something in every sentence. It's also packed with diagrams and pictures to speed up learning and help things stick in your mind.

Women's Opinions and SurveyThe book includes quotes from women all gathered from a survey about sex. Graphs of these women's opinions about different sexual matters also appear throughout the book. There are 8 graphs giving women's opinions on matters ranging from the amount of time they like spent on oral sex to what percentage of women like their nipples played with.

PsychologyThe psychological principles outlined in the book aren't difficult to understand and are all explained clearly. There are approximately six psychological principles that the book goes into detail on. Whilst you're reading them you'll be hit with several 'Aha!' moments that will expand your understanding of what makes women tick when it comes to sex.

AnatomyThe anatomy section is clear and easy to understand with pictures and diagrams to make things easier.

TechniquesThe physical technique section gives clear instructions on techniques to please a woman. It gives you the choice of lots of techniques to try out including:

- 12+ techniques to get her aroused
- 12+ techniques to give her oral pleasure

These techniques are all expandable so you can create your own technique easily. They are also simple techniques, there is no need for a protractor or a set square while using these techniques. If you have trouble making a woman orgasm from oral sex the book provides a finishing technique to make a woman orgasm that will work close to 100% of the time. The book is clear about the difference between techniques that nearly all women enjoy and techniques that only some women will enjoy. The book also outlines clearly the physical reactions that you'll get from women. This way you can tell without asking when she is aroused and when she has orgasmed.

CommunicationThe book also provides information about sexual communication and dealing with women's insecurities around oral sex.

Reviews:Here's what early female readers have been said about *Cunnilingus Mastery*: "Truth be told, I am pretty turned on from imagining all of the actions being performed on me. In terms of writing, it is well-written so that anyone can read and easily understand and be able to apply these instructions the next time they are put in such a situation." "I found it accurate and detailed. As a woman, I can agree that what was written definitely feels good to a woman. I think the details were phenomenal and I could picture the entire scenario." "It's really, really good! Some bits I was like, "Oh my god yes!" "I think that the book has a lot of good information. I started touching myself as advised and started to get turned on. I love how it

describes the importance of teasing a girl to make the orgasms more frequent/intense."

Customer Reviews

I've always enjoyed giving oral sex but always felt I could do better. I checked out this book to see if I could and it didn't disappoint. I have been down on her twice now with these techniques and both times she has had multiple orgasms and much stronger than usual. The author has a great understanding of what makes women tick in the bedroom and especially with oral sex. I explained it all to my wife and she agreed with everything.

My woman loves me to orally please her. She has multiple orgasms. Sometimes she likes the big "O", but other times I will lick her gently. She loves the attention, so I mix things up to keep her aroused and interested. She is worth every minute I invest.

To the point without a lot of meaningless filler makes this easy to read, easy to follow and easy to quickly refer back/forward to individual points of interest though nothing should be overlooked. Very well done.

Great read! I always was able to pleasure my woman before, but dang! She loves it now! She asks for it at least twice a week! She never knows if I'm going to tantalize her for a while or just jump into oral sex. It's great keeping her on edge.

Very general book about going down on a woman. The author is not very detailed and if you've ever given a woman multiple orgasms you won't need this book. I was hopeful he would have some new ideas, but alas it was very basic info about turning a woman on before eating pussy. If you've ever gone down on a woman and taken your time before the main event, you won't need this book. If you've never given a woman multiple orgasms you might find this book interesting.

After over 30 years of marriage , sex can be taken for granted but reading this brief book,it brings me back the excitement of when we first met. Get some romance and tenderness back and we both will be rewarded. Giving her an O is the most erotic experience I can have. After all, when you are 72, you can't always perform every night.

Informative and entertaining for the beginner guy who wants to know how to eat a woman out. How to satisfy his girl for the first time. Highly recommended!!!!

Excellent book. In text diagrams are easy to follow. I can re-read this book over and over for sure. It is short and to the point.
