Customer Reviews

Jo is a real jewel. My wife majored in Child Development, and swears by her. Some "JERK" by the name of Thomas has criticized four of Jo's books. He completed his four reviews on the same day.

His 1 star reviews of four her books, to use his favorite word, is CRAP. Jo needs to produce a series of videos which address parenting skills and problems ranging from infants to teenagers. She is a very valuable resource. Best investment you will ever make if you want to be a better parent (Mom's and Dad's).

I guess, I shouldn't be surprised, but this is a really great book! I was skeptical because Jo Frost is a television personality. However, the solutions in the book are very helpful and easy to follow.

Confident Toddler Care reads like a textbook. It's a quick, easy and realistic. My husband and I have no clue what we are doing, Confident Toddler Care has given us direction. Frankly, it's so good that I bought, and have given, the baby book when my son was at 13 months old. I wish I had received/seen this book sooner! I highly recommend both books!

I bought this when I became a grandmother. It's funny what you forget when you haven't taken care of a baby or a toddler for 20 or 30 years. It's great for refreshing old brains and for informing new mothers of the correct way to raise a toddler.

I was having a really hard time with my two year old!! Not listening, Not potty training, not eating all around very trying!! This book helped me with everything! I read the book for potty training and I followed her advice and stuck to the plan and within a week my boy was potty trained!! I keep the book close and have read it over and over again when I start to doubt myself! It really does help!

The book gets to the points quickly, I have 15 month twins, so when time is precious this is a good book to read. Simple tips that are realistic.

Jo Front writes such great books and her advice is so good. I bought them for dealing with my one and two year old grandchildren who are basically very good kids. I just want to be prepared for the future with them and funny that her ideas are so much like I raised my two sons who are now 39 and 36 and always well behaved with me being a single parent for most of their life.

she is my hero so this is like carrying her around in my pocket. it's a nice reference for people who babysit, too, to see how we generally handle things and situations they might have questions about.

I love this book so far. It is a textbook for toddler care, organized very well and with excellent tips. I

highly recommend this guide and know I will continue to refer to it as I continue these short, but intense years!
