Customer Reviews

I have owned this book for years. It was given to me by a female acquaintance. I bought this copy to give to a female acquaintance. If you are a woman, read this book. Tell your friends about it. Then buy another copy and gift it to a woman you barely know. When you read the book, you'll understand why I make this suggestion.

This book has been with me from the last 8 years. It has shown me the power I have within and also it has been my secret weapon dealing with the challenges I've faced as a woman. The book has been my best friend supporting me in my understanding of the female nature and it helped a lot when I was single, divorced and married again with 2 beautiful boys. We're quite different in every stage of life and we feel, think and act differently at 20, 25, 30, 38 ..., this book supported me in the new knowledge I was getting through out my adult life and I'm still getting it. I'm now 40 and still understanding more things about my nature and power and I'm making better choices. I think this beautiful book is the most empower full one I've ever read, it teaches you how to stand up and face

your power o (less of power) and use it to help you get private and public victories. I recommend this book for all women ages 20 and above, it helps you grown up and embrace life from what it is!!

I adore this book. I suggest for anyone who is female. I checked it out at the library at least a dozen times before I decided it should be on my shelf. Love it!

I'm very happy with this book. I was glad to purchase it. There is always wonder in the pages of it. Thank you seller!

This was a gift to someone living in Switzerland. I was told the book made very good reading.

A wonderful book...on the required reading list for a women's life.
